

18th Period Semi-Annual Report

For the fiscal period ended January 31, 2022

AEON REIT Investment Corporation

<https://www.aeon-jreit.co.jp/en/index.html>

AEON REIT Investment Corporation

AEON REIT invests primarily in retail and related properties* that form the backbone of local communities.

Retail and related properties are an integral part of the communities in which they are located. We believe that these properties and facilities in which we invest form the backbone of local communities and their retail business infrastructure.

We also aim to ensure stable income and achieve steady portfolio growth over the medium-to-long term by investing in retail and related properties that contribute to the betterment of individual lives and local communities.

*Refers to retail facilities, logistics facilities and related facilities. Retail facilities refers to facilities containing retail businesses and other merchandising businesses, entertainment and amusement facilities and other facilities that attract customers (including parking lots and equipment and systems for logistics). Logistics facilities refers to warehouses and other storage facilities for distribution and transport of merchandise and other goods.

AEON REIT Characteristics

We invest primarily in the retail properties of the AEON Group.

Investment Focused on Large-Scale Retail Properties

We invest primarily in retail properties that are an integral part of the communities in which they are located. In this asset class, we are structuring a portfolio of large-scale retail properties that we expect to generate stable cash flow over the medium-to-long term.

Type			Investment Percentage*	
			Domestic Real Estate	Overseas Real Estate
			85% or more	15% or less
Retail properties, etc.	Large-scale retail properties	Super regional shopping centers (SRSC)	80% or more	
		Regional shopping centers (RSC)		
		Community shopping centers (CSC)		
	Other retail properties	Neighborhood shopping centers (NSC)	20% or less	
		Supermarkets (SM)		
		Logistics facilities	10% or less	

*Investment percentage is calculated on an acquisition price basis.

Share of large-scale retail properties in our portfolio

Currently
93.1 %
(As of January 31, 2022)

Collaboration with the AEON Group for Stability and Growth

We maintain stability with long-term sources of earnings by investing in retail properties operated by the AEON Group, a leading retailer and developer of large-scale retail properties throughout Japan. We also leverage the AEON Group's retail property expertise to generate growth.

AEON Group
Consolidated operating revenue
¥8,603.9 billion
AEON Group employees
Approx. **570,000**
(As of February 28, 2021)

Stable Finances

Our conservative financial management is based on clear financial policies for target LTV and other matters. As a result, we have strong, stable relationships with financial institutions, primarily megabanks. We have also received a long-term issuer rating of AA- from Japan Credit Rating Agency, Ltd.

Japan Credit Rating Agency, Ltd.
long-term issuer rating

AA-
(Stable)

Highly Transparent Management

For asset acquisitions from the AEON Group or any other related-party transaction, the decision-making process includes a mechanism to incorporate the opinions of independent third parties having no relationship with the Aeon Group. This creates highly transparent management that ensures win-win relationships with both unitholders and the AEON Group. Please refer to page 18 for details.

Introduction of Cumulative Investment Unit Purchase Program

On May 1, 2014, we introduced a program that enables directors and employees of AEON REIT and the Asset Manager to acquire AEON REIT's investment units using a cumulative investment program through securities firms.

The program will help to further raise awareness toward enhancing the value of AEON REIT's investment unit price and improving business performance to provide greater financial motivation in line with the interests of unitholders.

Initiatives on Sustainability

AEON REIT cares about Environmental, Social and Governance (ESG) issues in all aspects of its operations and cooperates with its stakeholders for such purposes.

Sustainability Policy

1. Environmental Initiatives

- (1) In order to achieve the realization of a low-carbon society, work to continuously improve energy efficiency and reduce emissions of greenhouse gases through the use of renewal sources of energy.
- (2) Promote peaceful coexistence with the natural environment by paying consideration to the conservation of ecosystems, and through tree planting activities and other real estate management initiatives.
- (3) In order to achieve sustainable use of resources, work towards conservation and recycling of resources through the promotion of water saving and the 3Rs (Reduce, Reuse, Recycle) with regard to the use of resources.
- (4) Observe and conform to environmental-related laws and regulations, etc., and endeavor to prevent environmental pollution.

2. Cooperation with Stakeholders

- (1) By carrying out education and training with regard to environmental issues, endeavor to raise the environmental awareness of our corporate officers and to pay care and attention to the diversity and work-life balance of our employees.
- (2) By utilizing the total, comprehensive power of the AEON Group, endeavor to provide comfortable work environments to the employees of end tenants/associates as well as those of other partner companies, and work to build a sound and healthy cooperative relationships.
- (3) In order to facilitate the advancement of ESG initiatives across the entire supply chain for our real estate operations, endeavor to implement a green procurement strategy.
- (4) Provide support for volunteer activities and places/opportunities for people from local communities to gather for educational and information exchanges, and endeavor to cooperate with communities as a hub for reconstruction efforts in times of disasters.
- (5) Proactively disclose information regarding ESG issues to investors and endeavor to communicate openly with them, and work continuously towards obtaining Green Building certification.

Establishment of Materiality (Key Issues)

AEON REIT has identified 14 topics as its materiality (key issues) regarding sustainability issues, and selected 8 of them as priority themes.

Focus will be placed on the priority themes going forward to investigate specific measures and setting of KPIs.

Priority themes

Support for TCFD Recommendations

In December 2021, AEON Reit Management Co., Ltd. (the Asset Manager) expressed support for the recommendations announced by the Task Force on Climate-related Financial Disclosures (TCFD) in 2017.

Arrangements will be made in the 19th Period and thereafter for information disclosure in line with the recommendations by the TCFD.

Nobuaki Seki

Representative Director and President
AEON Reit Management Co., Ltd.

Can you give us an overview of the fiscal period ended January 2022 (August 1, 2021 to January 31, 2022)?

Significant impact of COVID-19 on society and the economy remains, which has continuously caused major changes in people's lifestyles and sense of values. Even under such difficult conditions, we have taken a variety of initiatives by making the best of our strengths and features.

The first of these initiatives is property acquisition achieved by utilizing our abundant pipelines. In August 2021, AEON REIT conducted a public offering for the first time in nearly two years. Using proceeds from issuance of new investment units, we newly acquired four properties that amounted to over ¥50 billion in total. All of them are “community infrastructure assets” that form the backbone of local communities, vigorously selected through the unique capability of AEON REIT to assess properties. They have also contributed to the growth of our cash distribution.

Moreover, we conducted refurbishment at two properties of our portfolio through investments for vitalization, to achieve higher rents for them.

AEON Ueda Shopping Center was renovated with its external walls re-painted, as shown in the photo. Eco-friendly paints were used to not only enhance the property's image but also reinforce functional-

ities including waterproofing. We invested ¥271 million in the work, which led to a rent increase by ¥17 million annually.

At AEON MALL Suzuka, the section that had been used for events or as a rest area was changed to an eatery and attractive tenants were invited to operate four stores, in an effort to enhance the property's ability to attract customers. This has led to a rent increase of ¥5 million annually, against ¥63 million invested in the work.

Going forward, we will continue to make such investments that should reinforce the competitiveness and maintain and enhance the functionalities of stores while also benefitting our unitholders.

Next, we have reviewed the earthquake insurance that covers our properties.

AEON REIT purchased earthquake insurance after it had suffered major damages from the Kumamoto Earthquake several years ago. The earthquake insurance, which covers all of our properties in Japan, was set to provide insurance money of up to ¥3 billion annually, with immunity of ¥100 million. For the 18th fiscal period, immunity of the earthquake insurance has been reduced from ¥100 million to ¥50 million. Immunity refers to the

Exterior Wall Re-Painting Work at AEON Ueda Shopping Center

Refurbishment Work at AEON MALL Suzuka

Renewed Sustainability Pages on the Website

amount that should be borne by the insured at the occurrence of an accident to be covered by the insurance.

Lower immunity may lead to a higher insurance premium, but offers the advantage of lower amount to be borne by us at the occurrence of an earthquake-related accident that calls for an insurance money surpassing the immunity amount. We have made this change in order to secure more stable management even when an earthquake breaks out, taking into account the fact that many, relatively large earthquakes have occurred recently and that AEON REIT has come to own a larger number of properties that are more diversified geographically.

With regard to sustainability, which commands

increasingly greater importance, we identified our materiality (key issues) and expressed support for the recommendations of the Task Force on Climate-related Financial Disclosures (TCFD) in the 18th fiscal period. We will continue to promote further endeavors on this issue going forward.

On the website of AEON REIT, the sustainability pages have been significantly renewed. You can find more details later in this report.

Moreover, with a recognition given to the endeavors we have made to date, we have been highly regarded by third-party assessment institutions, including continuous receipt of "5 star" marks from GRESB and obtainment of DBJ Green Building Certification.

Q2 Based on the current environment, what are the future prospects AEON REIT is aiming for?

As a medium-term target, AEON REIT aims to achieve cash distribution under normal operation of ¥3,300 per unit and, although no target date is set, to grow its portfolio size to ¥500 billion.

As mentioned earlier, AEON REIT achieved further development in the 18th fiscal period by leveraging its unique strengths and features. Consequently, we are only a little further until achieving the medium-term target of cash distribution under

normal operations at ¥3,300.

For the portfolio size target of ¥500 billion, the latest acquisition of the four properties has made it more probable that we can achieve it.

Expanding the portfolio size should lead to higher stability of asset management, and we definitely want to achieve the target. However, I believe we need to do so on the premise that, with AEON REIT conducting assessment on its own, we

Community Infrastructure Assets that are Supported by Local Communities and Continue Evolving

What are community infrastructure assets?

- A community platform having many tenants that people visit in their daily lives
- A facility that responds flexibly to changes in the daily living needs and business environment, and can continuously operate over a long time going forward
- A facility essential to the local society as a place where the local community is developed

Environmentally friendly facilities

Installed solar panels on the rooftop or wall surface to help reduce environmental burdens

Drive through and pick up!

Prepared a lane in the site for drivers to pick up items they ordered on the website

A range of tenants visited by consumers on a daily basis. Specialty stores meeting a wide range of consumer needs, including cinema and food court

Tenants providing public services

Post office, nursery school, clinic and other tenants providing public services

Venue for local exchanges and community activities

Holding a variety of events including mall walking, family events, festivals and rakugo (Japanese comic storytelling)

AEON's online supermarket business integrated with the real stores

Strong ability to attract customers by offering a wide variety of products centering on foodstuff

Order on the website, pick up at the store counter or use exclusive lockers

AEON as a disaster prevention base

Signed a disaster relief cooperation agreement with the Ground Self-Defense Force and Japan Airlines

Balloon shelter, an evacuation space upon disaster

AEON Group's Initiatives in the Living with COVID-19 Era

Implemented initiatives as community infrastructure assets to address changes while thoroughly conducting infection-control measures

Online Supermarket

"Drive Pickup!" diversifies the ways to receive products ordered at online supermarket

New shopping style

"Regi-go" allows non-face-to-face shopping without waiting at cash registers

Addressing changes in demand

Mask shops opened regularly for customers to enjoy choosing masks that match their lifestyles

New services to avoid congestion

"Drive-in theater" provides extraordinary experiences not obtained at movie theaters

Stably providing daily necessities

Sales strengthened to meet demand for daily necessities in short supply

Support for living

Implemented initiatives to invigorate both customers and the communities, based on the "Customer First" philosophy

vigorously select properties which we can confidently describe them as "community infrastructure assets" that form the backbone of local communities, and acquire them at the right time.

Currently, while working to discern the impact of the external environment, we are studying what to set as new targets that take advantage of our ample cash flows and abundant pipelines.

In closing, do you have a message for the unitholders?

Looking ahead, AEON REIT will continue to manage assets with stability and growth potential, through such measures as utilizing its unique assessment capability to invest in "community infrastructure assets" that form the backbone of local communities, securing the stability of earnings, and conducting appropriate investments for vitalization after acquiring properties.

We are in an environment where the outlook is uncertain and changing significantly, but that is exactly why we are resolved to make the best of the strengths of AEON REIT and conduct management in a way valued by the unitholders. By doing so, we will exert ourselves to steadily achieve enhancement of unitholder value.

We would greatly appreciate your continued support to AEON REIT.

Recognition by External Institutions in the 18th Period

DBJ Green Building Certification

Assessment of properties

List of properties certified in the 18th Period

Property name	Assessment rank
AEON MALL Shinkomatsu	Obtained 2021 ★★★★★ (highest rating)
AEON MALL Shinrifu North Wing	Obtained 2021 ★★★★★
AEON MALL Takasaki	Obtained 2021 ★★★★★
AEON MALL Narita	Obtained 2021 ★★★★★

Financial Highlights

As of January 31, 2022

AEON REIT Investment Corporation ("AEON REIT"), which has been listed for eight years since November 2013, closed its eighteenth operating period (the "18th Period") on January 31, 2022.

The impact of COVID-19 still remains on the business conditions surrounding us. Even under such circumstances, AEON REIT remains committed to stable management of its assets, taking advantage of its strengths of "lease agreements for entire individual buildings with fixed rents" and "investments in community infrastructure assets that are always supported by local communities."

In the 18th Period, AEON REIT conducted a public offering, its sixth such arrangement, and used the proceeds to acquire properties amounting to over ¥50 billion. On top of this, refurbishment and other works at AEON MALL Suzuka and AEON Ueda Shopping Center effectively achieved a rent increase. These have enabled us to deliver distribution per unit of ¥3,315, realizing a further growth from ¥3,200 for the previous period.

Going forward, we will continue our endeavors to deliver stable cash distributions over the medium to long term.

We would greatly appreciate your constant and solid support of AEON REIT.

Nobuaki Seki, Executive Director

Of which, balance of investment corporation bonds	¥51 billion	¥51 billion	¥51 billion
Initial remaining years to maturity	7.9 years	7.9 years	7.3 years
Average remaining years to maturity	4.9 years	4.4 years	4.3 years
Average cost of interest-bearing debt	0.77%	0.77%	0.73%
Ratio of long-term debt	100%	100%	100%
Ratio of fixed-rate debt	100%	100%	89.2%
LTV (including tenant leasehold and security deposits)	44.8%	44.9%	44.7%
Debt financing capacity (up to 50%) ^(Note 2)	Approx. ¥39 billion	Approx. ¥39 billion	Approx. ¥45 billion

Notes: 1. Includes refinancing (other than bridge loans) and debt financing for acquiring new properties.

2. The figures indicate the approximate amount of debt financing capacity when LTV (including tenant leasehold and security deposits) is raised to 50%.

AEON REIT is Working to Build a Financial Base that Can Survive Any Change in the Business Environment

Extend Remaining Years to Maturity Procure Funds at Low Cost

As a rule, AEON REIT is simultaneously pursuing extension of remaining years to maturity and procurement of funds at low cost, in an effort to establish a financial base that can survive any change in the business environment.

Notes: 1. Average interest rate for debt financing is calculated using the following formula:

Average interest rate for debt financing as of the end of each fiscal period = weighted average of the interest rate for each interest-bearing debt as of the end of each fiscal period based on the amount of each interest-bearing debt as of the end of each fiscal period

2. Average remaining period to debt maturity is calculated using the following formula:

Average remaining period to debt maturity as of the end of each fiscal period = average of the remaining periods to the repayment dates or redemption dates indicated in the loan agreements, etc. as of the end of each fiscal period, weighted by the amount of each interest-bearing debt as of the end of each fiscal period

Diversification of Maturities

AEON REIT endeavors to respond to any change in the market by diversifying maturities so that they are not concentrated in certain years.

Diversification of Fund Procurement

AEON REIT disperses risks by diversifying procurement sources and methods, including diversification of lending financial institutions and issuance of investment corporation bonds.

Breakdown of Interest-Bearing Debt (as of January 31, 2022)

Note: Although Mitsubishi UFJ Trust and Banking Corporation's corporate lending operations were transferred to MUFG Bank, Ltd. as of April 16, 2018 through a company split, the calculation is made in accordance with the name of the financial institutions at the time of borrowing.

Proper Control of LTV

AEON REIT endeavors to keep the ratio of interest-bearing debt to total assets (LTV) at an appropriate level. If the upper limit of LTV including tenant leasehold and security deposits is set at 50%, the debt financing capacity stands at approximately ¥45 billion.

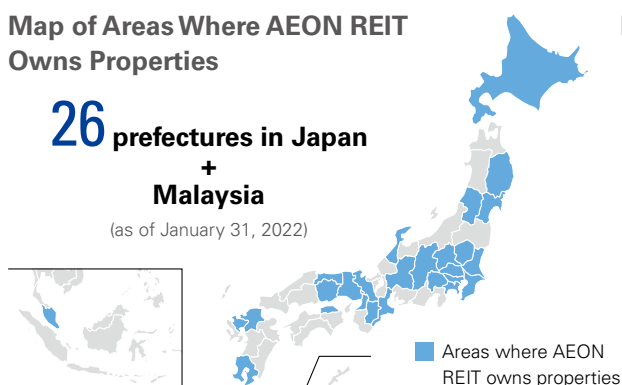

Risk Management Measures by AEON REIT

Diversified Investment

AEON REIT has diversified its investment areas and investment ratio per property (based on acquisition price) to promote risk diversification against disasters and environmental changes, etc.

Map of Areas Where AEON REIT Owns Properties

Investment Ratio (10 Largest Properties)

(as of January 31, 2022)

Internal Reserves of Distribution Reserve

Since the 9th Period ended July 2017, AEON REIT has reserved ¥520 million in preparation for stable management and cash distributions in the future.

Changes in the Balance of Internal Reserves of Distribution Reserve

Purchase of Various Types of Insurance

Purchase of Earthquake and Fire Insurance

AEON REIT has its portfolio of properties in Japan covered by earthquake and fire insurance in an effort to mitigate natural disaster risks.

Earthquake insurance money: up to ¥3,000 million per year (immunity of ¥50 million) ^(Note)

*Fire insurance also covers wind and flood damages from typhoons and heavy rain.

Facility liability insurance also covers business indemnity.

(Note) Immunity for AEON LakeTown mori and AEON LakeTown kaze is ¥30 million, respectively.

Abundant Cash Flows

Approx. ¥7.8 billion annually

(as of January 31, 2022)

AEON REIT has a capacity to generate free cash flows of about ¥7.8 billion per year, which can be utilized upon the occurrence of sudden disasters as well.

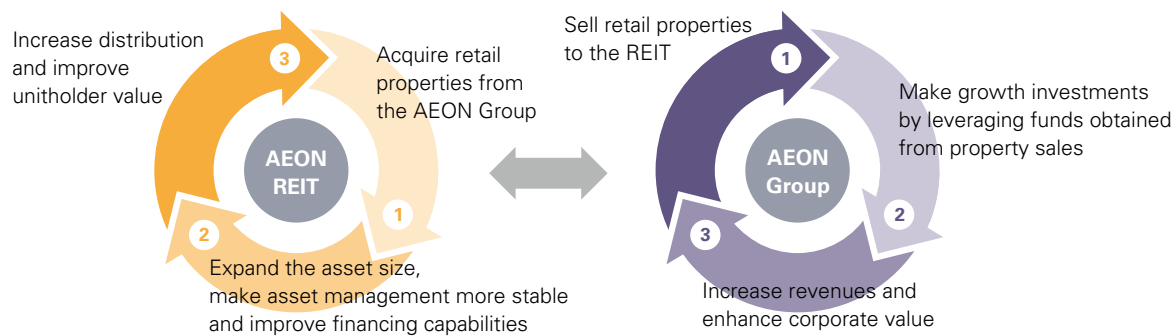

(Note) Free cash flows are calculated by subtracting capital expenditures (excluding investments for revitalization with a rent increase) from depreciation. The combined figure of the values at the ends of the 17th and 18th Periods is indicated.

A long-term framework for stable earnings and collaboration with the AEON Group will drive growth.

A Growth Strategy Based on a Win-Win Relationship with the AEON Group

AEON REIT’s growth strategy targets portfolio growth over the medium-to-long term by leveraging the comprehensive strengths of the AEON Group. This involves a sound, mutually reinforcing, win-win relationship with the objective of maximizing unitholder value.

Our Win-Win Relationship with the AEON Group

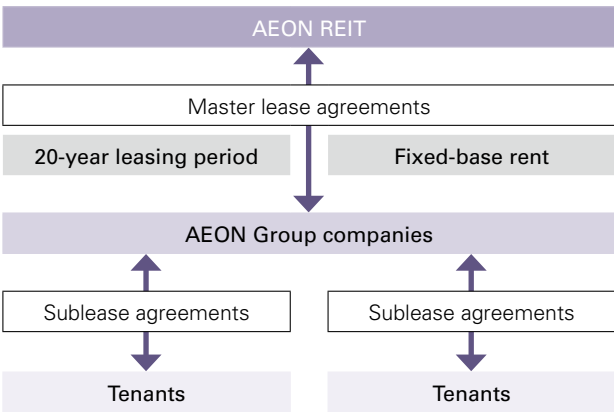

1. A Growth Strategy Based on Stable Earnings

We will build a stable framework for earnings as the foundation for achieving growth by concluding long-term, fixed-base rent master lease agreements with the AEON Group for suburban retail properties with few or no local peers.

Fixed-Base Rent over 20-Year Leasing Periods

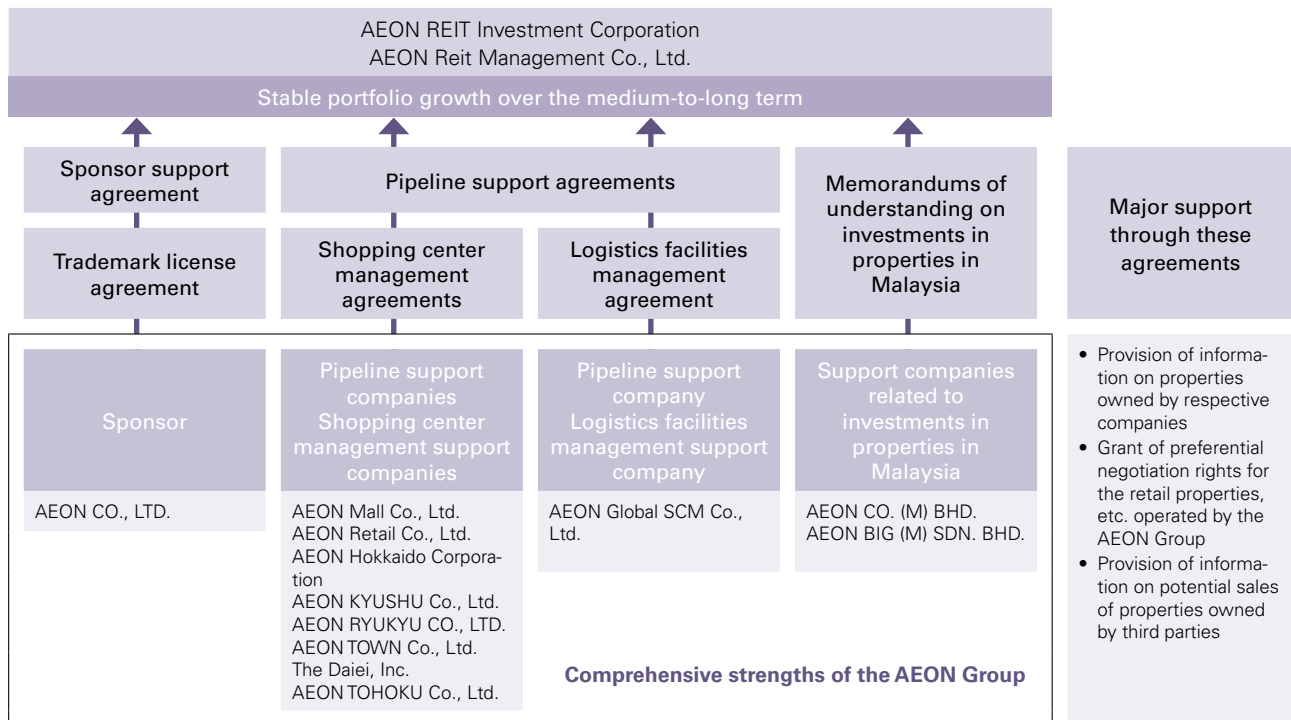

AEON REIT and the AEON Group conclude master lease agreements that provide AEON REIT with fixed-base rent over 20-year leasing periods, providing a long-term, stable source of earnings. AEON REIT enhances capital efficiency, stabilizes cash flow, and increases unitholder value over the medium-to-long term by providing an amount equivalent to depreciation expenses to internal reserves from which it periodically makes optimal distributions according to circumstances.

Lease Structure

2. Expansion and Enhancement of the Support System by the AEON Group

In order to take advantage of the comprehensive strengths of the AEON Group, AEON REIT and the Asset Manager have concluded a sponsor support agreement and a trademark license agreement with AEON CO., LTD. as well as pipeline support agreements, shopping center management agreements and memorandums of understanding on investments in properties in Malaysia and logistics facilities management agreements with respective companies of the AEON Group.

Total assets are calculated by deducting the entire amount of equity investment related to an overseas real estate holding corporation, etc. from, and adding the amount of total assets of the overseas real estate holding corporation to, the amount of total assets stated in the balance sheets for the fiscal period proximate to the relevant fiscal period.</div><div>2. NOI refers to the amount obtained by subtracting expenses related to real estate leasing business (excluding depreciation and loss on retirement of non-current assets) from the sum total of revenues related to real estate leasing business of each fiscal period.</div><div>3. Transaction with related parties: $\text{Acquisition price} \times 0.25\%$</div><div>4. Transaction with related parties: No disposition fee</div></div></div>	

As of January 31, 2022

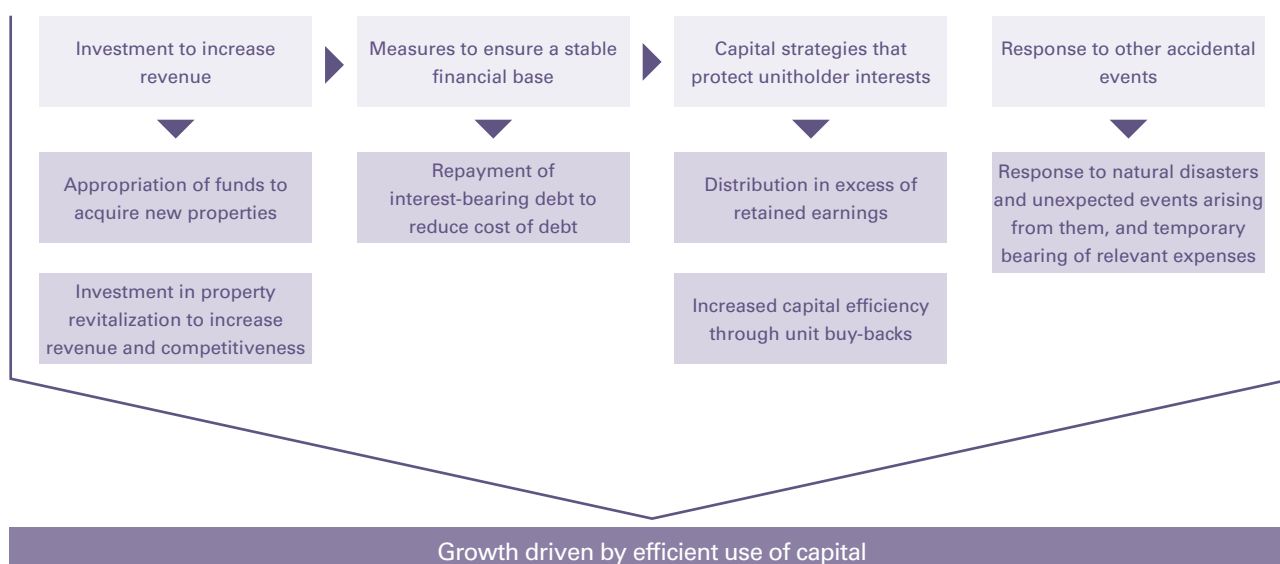

Effective and Efficient Financial Management

We have clear financial policies to ensure a stable financial base and deploy capital strategically.

1. Strategic Cash Management

Many large-scale retail properties are located in suburbs, and therefore have a shorter depreciation schedule than office or residential properties because building value accounts for a greater proportion of the real estate value. Consequently, depreciation expenses tend to be greater relative to real estate value. AEON REIT enhances capital efficiency, stabilizes cash flow, and increases unitholder value over the medium-to-long term by providing an amount equivalent to depreciation expenses to internal reserves from which it periodically makes optimal distributions according to circumstances.

2. Stable Financial Base

AEON REIT operates according to clear financial policies to maintain and improve its strong financial base. These policies include a target loan-to-value (LTV) ^(Note) ratio; a high ratio of long-term debt to total debt, which is currently 100.0 percent; a high ratio of fixed-rate debt to total debt, which is currently 89.2 percent; and diversification of lenders as of January 31, 2022.

(1) Financial Policies

LTV	Maintain an LTV ratio of about 50 percent, with an upper limit of 60 percent
Extended loan maturities and fixed interest rates	Commit to loan maturities according to cash flow conditions based on tenant lease terms and content
Bank formation	Diversify lenders with a focus on megabanks

Note: LTV: (Interest-bearing debt + Tenant leasehold and security deposits) ÷ Total assets × 100

(2) Debt (Including Investment Corporation Bonds) (As of January 31, 2022)

Type	Lenders	Amount		Drawdown date/ Issue date	Due date/ Maturity date	Interest rate
			Breakdown			
Current portion of long-term loans payable	Syndicate of lenders arranged by Mizuho Bank, Ltd., Sumitomo Mitsui Banking Corpora- tion and Sumitomo Mitsui Trust Bank, Limited	¥5.8 billion	¥5.8 billion	March 29, 2016	October 20, 2022	Effective fixed rate ^(Note) 0.54100%

5th Unsecured Investment Corporation Bond		¥15.0 billion		December 7, 2018	December 7, 2028	Interest rate: 0.783% per annum
6th Unsecured Investment Corporation Bond (Green Bonds)		¥12.0 billion		December 6, 2019	December 6, 2029	Interest rate: 0.726% per annum
7th Unsecured Investment Corporation Bond (Sustainability Bonds)		¥18.0 billion		December 4, 2020	December 4, 2030	Interest rate: 0.992% per annum

Note: While funds are borrowed at floating rates, the interest rates are fixed in effect by entering into interest rate swap agreements to hedge interest rate fluctuation risk. The figures are the interest rates calculated after taking into consideration the effect of interest rate swaps.

(3) Distribution of Maturities (As of January 31, 2022)

As shown below in the distribution of maturities, we borrow at long-term, fixed interest rates and disperse the terms of repayment.

(4) Acquisition of Credit Rating

As of the date of this publication, AEON REIT had received a long-term issuer rating of AA- from Japan Credit Rating Agency, Ltd.

Japan Credit Rating
Agency, Ltd.

AA- [Stable]

Highly Transparent Management Structure

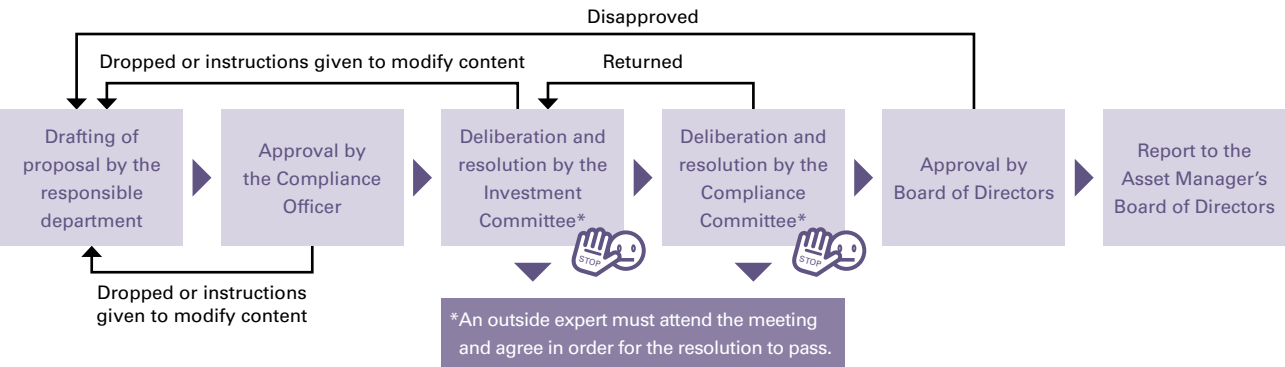

We are deepening collaboration with the AEON Group and structuring management to make decisions that are appropriate for growth over the medium-to-long term.

Nobuaki Seki
Executive Director
AEON REIT Investment Corporation

1. Transparent Decision-Making Process

For asset acquisitions from the AEON Group or any other related-party transaction, the decision-making process includes a mechanism to incorporate the opinions of independent third parties having no relationship with the AEON Group as shown below.

2. Unit Ownership by AEON CO., LTD. and Co-Ownership of Properties with the AEON Group

AEON CO., LTD. carefully considers acquiring a portion of any new issue of units by AEON REIT, and maintains its holdings of AEON REIT units at the fixed percentage of 19.9 percent of total units issued. AEON REIT may engage in strategic co-ownership (including quasi co-ownership) of properties with AEON Group companies based on the sponsor support and pipeline support agreements after considering portfolio diversity and the particular features of properties.

3. Introduction of an Asset Management Fee Structure Linked to Distribution per Unit

AEON REIT is introducing an asset management fee structure linked to distribution per unit for its Asset Manager, AEON Reit Management Co., Ltd. The structure should synergistically enhance AEON REIT's value.

Asset management fee structure		Calculation method
Asset management fees	Asset management fee I	Total assets x 0.3% ^(Note 1) x (asset management days ÷ 365)
	Asset management fee II	Distribution per unit before subtraction of asset management fee II x NOI ^(Note 2) x 0.001% ^(Note 1) (rounded down to the nearest yen)
Acquisition fee		Acquisition payment x 0.5% ^(Note 1) (Related-party transaction: acquisition payment x 0.25%)
Disposition fee		Disposition receipts x 0.5% ^(Note 1) (Related-party transaction: no disposition fee)

Notes: 1. Each rate shown above represents the maximum rate in each fee category.

2. In the above table, net operating income (NOI) refers to real estate rental revenue for the relevant fiscal period less real estate leasing expenses (excluding depreciation and losses on disposal of fixed assets).

4. Our Policy for Compensation

Our Articles of Incorporation provide that we may pay our executive director up to ¥1 million per month and each of our supervisory directors up to ¥1 million per month. Our Board of Directors is responsible for determining a reasonable compensation amount for our executive director and each of our supervisory directors, taking into account general price movements and wage movements. We do not have any unit-based compensation plan.

Currently, our executive director is not receiving any compensation from us (although he, in his capacity as the Representative Director, President and Chief Executive Office of the Asset Manager, receives compensation from the Asset Manager).

5. Remuneration Policy for the Asset Manager's Directors, Corporate Auditors and Employees

1. Remuneration for Asset Manager Directors

- (1) The Board of Directors approves remuneration for directors within the limits for total remuneration for directors authorized by the General Meeting of Shareholders.
- (2) Remuneration for individual directors is determined through comprehensive assessment that includes corporate performance, individual evaluation and other circumstances.
- (3) Remuneration for directors is structured as follows (except for outside directors, who receive only base remuneration and do not receive any performance-based remuneration or prepaid retirement allowances):
 - 1) Base remuneration: Determined individually within standard amounts based on position and rank.
 - 2) Performance-based remuneration: Determined within a range of 0 percent to 200 percent of the standard amount according to corporate performance during the relevant fiscal period and individual assessment (e.g., performance for which the director is responsible, degree to which targets were achieved, relative difficulty of responsibilities, and importance of responsibilities). One hundred percent of the standard amount is paid upon achievement of targets set at the beginning of the fiscal period.
 - 3) Prepaid retirement allowance: Determined based on the following formula that applies a coefficient based on position and rank to base remuneration.

$$\text{Prepaid retirement allowance (monthly payment)} = \text{Base remuneration} \times \text{coefficient} \div 12 \text{ (rounded to the nearest thousand yen)}$$

2. Remuneration for Asset Manager Corporate Auditors

- (1) Remuneration for corporate auditors is determined by resolution of the General Meeting of Shareholders.
- (2) Corporate auditors may express opinions, if any, regarding matters including remuneration for corporate auditors as needed to the Board of Directors and the General Meeting of Shareholders.

3. Remuneration for Asset Manager Employees

- (1) Employees of the Asset Manager receive remuneration according to their relative contribution to and expectations for the achievement of management targets.
- (2) Remuneration, methods of calculation and payment, timing of payment, and increases in remuneration are determined according to compensation rules.
- (3) Monthly remuneration is composed of job-based pay, merit pay and adjustments. Employees may receive increases or reductions after twelve months of their current job-based and merit pay based on personnel evaluations during the year. Such increases or decreases will be set based on a pay table determined for each job category.
- (4) Bonuses are calculated based on sales and performance, and are determined after deliberation by the Board of Directors. Bonuses take into account issues including qualifications (pay grades), personnel evaluations, performance, and attendance.

Remuneration for Asset Manager Directors and Corporate Auditors

March 1, 2021 to February 28, 2022

	Directors		Corporate auditors		Total	
	Number of person(s) remunerated	Remuneration	Number of person(s) remunerated	Remuneration	Number of person(s) remunerated	Remuneration
Remuneration based on Articles of Incorporation and resolutions of the General Meeting of Shareholders	5	¥73 million	1	¥2 million	6	¥75 million (Note 1, 2)

Notes: 1. Remuneration for directors is as per the Companies Act of Japan, Article 361, Paragraph 1, Item 1.

2. Annual remuneration is limited to ¥500 million for directors and ¥100 million for corporate auditors, as per the Extraordinary General Meeting of Shareholders held on August 28, 2012.

Remuneration for Asset Manager Employees

March 1, 2021 to February 28, 2022

	All employees			
	Number of employees	Remuneration		
		Total	Fixed	Variable (Note)
Remuneration based on compensation rules	35	¥257 million	¥196 million	¥61 million

Note: Please refer to "3. Remuneration for Asset Manager Employees (4)" on how variable remuneration is determined.

The Asset Manager also introduced a unit ownership plan for directors and employees in May 2014.

The plan will keep directors and employees focused on AEON REIT's unit price and improving performance, with the objective of maximizing unitholder value by giving directors and employees an economic incentive to serve unitholder interests by increasing unit price.

There are potential conflicts of interest between AEON REIT and the Asset Manager with respect to remuneration for the Asset Manager's directors, corporate auditors and employees. We believe that the above remuneration policy mitigates such potential conflicts. In addition, the Asset Manager has adopted an internal set of rules that apply to all related-party transactions, such as transactions between AEON REIT and the Asset Manager. These rules require strict compliance by the Asset Manager with laws and regulations regarding related-party transactions. They also contain specific procedures to be followed in the event of a transaction that involves a related party, in order to implement arm's length terms.

1. Investment Policies

1) Basic Philosophy of AEON REIT

AEON REIT Investment Corporation (“AEON REIT”) intends to invest primarily in real property-related assets that consist of, or are backed by, properties that are or can be used as retail and related properties^(Note 1) (including when multiple properties are developed or utilized in an integrated manner).

Note 1: The term “retail properties” refers to retail, logistics, and related properties.

We intend to invest primarily in retail and related properties that are an integral part of the communities in which they are located. We believe that these properties and facilities in which we plan to invest form the backbone of local communities and their retail business infrastructure. We also aim to ensure stable income in the medium-to-long term and achieve steady portfolio growth by investing in retail and related properties that contribute to betterment of individual lives and local communities.

Our sponsor, AEON CO., LTD. (“AEON” or “Sponsor”), is the parent company of the Asset Manager. AEON is a corporate group structured as a holding company called the AEON Group.^(Note 2)

Note 2: The AEON Group consists of a pure holding company, AEON CO., LTD. (head office: Mihama-ku, Chiba-shi, Chiba), 286 consolidated subsidiaries and 26 equity-method affiliates (as of February 28, 2022).

The AEON Group aims to enable peaceful, prosperous living to grow in cooperation with the people living in the communities it serves through retail business infrastructure that forms the backbone of local communities. With a basic philosophy that helping the AEON Group grow will help AEON REIT grow, AEON REIT invests primarily in retail and related properties operated by the AEON Group.

2) Portfolio Composition Policy

AEON REIT bases portfolio composition on the following policies.

1. Investment Area

Based on our Articles of Incorporation provisions and the management guidelines of our Asset Man-

ager, we invest primarily in Japan and overseas^(Note 3) as well.

Note 3: The guidelines of AEON REIT’s Asset Manager stipulate that AEON REIT shall invest in Japan and overseas, and that overseas investments will primarily focus on the target areas of Malaysia, other ASEAN countries, and China, along with other countries with growing populations where economic development is expected over the medium-to-long term (Article of Incorporation 28, Paragraph 3).

A. Investments in Japan

We invest primarily in retail and related properties operated by the AEON Group in Japan.

We do so because of our focus on the strong earnings base and stable growth potential of various retail and related properties that the AEON Group has already constructed. The AEON Group developed its retail business based on its corporate philosophy of “pursuing peace, respecting humanity, and contributing to local communities.” In addition, the AEON Group regards the retail business as a local industry that is rooted in and grows with the community because the retail business is able to create sites and neighborhoods.

In accordance with the basic philosophy above, in principle AEON REIT will acquire assets in Japan with a policy of selectively investing in retail and related properties operated by the AEON Group in established commercial areas that are closely related to the community and that help maximize our unitholder value. In addition, AEON REIT will invest throughout Japan to construct a geographically diversified portfolio that is not concentrated in any one area.

B. Investments overseas

As presented in A. Investments in Japan above, AEON REIT primarily invests in Japan. We are also selectively considering investment in AEON Group retail properties overseas because we anticipate that the retail and related properties the AEON Group develops in countries and regions that are expected to develop economically over the medium-to-long term will generate stable cash flow.

With this in mind, our target investment areas are Malaysia and other ASEAN countries,^(Note 4) China, and other countries with growing populations where economic development is expected over the medium-to-long term. We will determine the retail

properties to be acquired upon careful consideration of factors including population dynamics, economic growth, country risks, laws, tax regulations, political systems and cultural compatibility in the relevant country or area.

Note 4: Indonesia, Malaysia, the Philippines, Singapore, Thailand, Brunei, Vietnam, Laos, Myanmar and Cambodia constitute the ASEAN region.

2. Investment Targets and Ratios

AEON REIT will invest in the following types of retail and other properties. Real estate in Japan will account for 85 percent or more of our portfolio, and overseas real estate will account for 15 percent or less. Moreover, investments in large-scale retail properties will constitute 80 percent or more of our portfolio. However, we will review these ratios as our portfolio expands.

A. Retail properties in Japan

(i) Target Investments

We will primarily invest in retail properties operated by the AEON Group in Japan. We believe that retail property size is positively correlated with customer traffic and a large floor space allows flexibility when dividing the retail area into sections. We therefore plan to invest mainly in large-scale retail properties that have few or no nearby competitors and a comparative advantage in various locations.

Furthermore, the AEON Group is a retail industry leader in establishing an advanced supply chain utilizing its own logistics facilities to support the operation of retail properties and the rest of its retail business. We will also invest in logistics facilities that are closely related to the AEON Group's

retail business.

(ii) Investment Percentage

Of the property types shown below, we categorize SRSCs, RSCs and CSCs as large-scale retail properties, which will account for 80 percent or more of our portfolio based on acquisition price. Logistics facilities will account for not more than 10 percent of our portfolio based on acquisition price.

B. Overseas retail properties: the first J-REIT to invest in properties outside Japan

(i) Target Investments

In principle, AEON REIT will minimize the risks of investing in areas outside Japan by investing in retail and other properties that we will lease entirely to the AEON Group under a master lease agreement that ensures the AEON Group can and will manage and operate it.

In addition, we will carefully assess potential investments by reviewing the risks specific to overseas properties, including (1) country risk, (2) operational risk, and (3) currency risk, by considering the compatibility of laws, accounting and tax systems in Japan and overseas while also considering factors including political and economic trends.

(ii) Investment Percentage

The overseas retail and other properties in which we invest shall account for not more than 15 percent of our portfolio on an acquisition price basis.

Type		Investment Percentage ^(Note)	
		Domestic Real Estate	Overseas Real Estate
		85% or more	15% or less
Large-scale retail properties	Super regional shopping centers (SRSC)	80% or more	
	Regional shopping centers (RSC)		
	Community shopping centers (CSC)		
Other retail properties	Neighborhood shopping centers (NSC)	20% or less	
	Supermarkets (SM)		
Logistics facilities		10% or less	

Note: Investment percentage is calculated on an acquisition price basis. Acquisition and disposition of real estate and related assets may result in short-term variance with the above ratios. The same shall apply hereafter.

3) Investment Guidelines

AEON REIT will acquire properties in Japan and overseas according to the following investment guidelines.

1. Location

AEON REIT will invest throughout Japan to construct a geographically diversified portfolio that is not concentrated in any one area.

Overseas, we will invest in the ASEAN region, China and other countries and regions with growing populations where economic development is expected over the medium-to-long term.

2. Investment Amount

In principle, investment amount per property shall be ¥500 million or more (acquisition price excluding consumption or other taxes). In principle, investment amount per property overseas shall be ¥500 million or more when converted into yen at the time of acquisition.

3. Acquisition Price

Investment decisions shall involve comprehensive deliberations that are based on our valuation of properties and take appraisal values into consideration.

In the case of a related-party transaction, the property must be acquired at or lower than the appraisal value (excluding taxes, brokerage fees, acquisition costs, costs for creating trusts, reserved funds in trust accounts, income from trusts, periodic settlements such as fixed asset taxes, and other miscellaneous expenses).

This also applies to acquisitions of overseas assets.

4. Seismic Review

In principle, we shall invest in properties that have been constructed, reinforced or otherwise modified to meet applicable new earthquake resistance building codes (which are based on the Building Standards Act; 1950, Law No. 201; as amended in 1981) or have been deemed to have seismic capacity equivalent thereto. In the case of investments overseas, we will determine the properties to be acquired based on a comprehensive judgment

taking into account the practical operations in the relevant country or area, in addition to compliance with standards under applicable laws and regulations.

5. Earthquake Probable Maximum Loss (PML)

In principle, we shall invest so that overall PML^(Note 5) of our portfolio in Japan does not exceed 10 percent. We shall consider taking out earthquake insurance if we acquire a property with a PML that exceeds 15 percent. For overseas assets, we will comply with the earthquake resistance standards under applicable national or regional laws, and shall make investment decisions based on comprehensive deliberations that take into account the ability to obtain PML values in the region, the availability of earthquake insurance, and local practices.

Note 5: PML indicates the level of damage that may result from an earthquake of the assumed maximum size (major earthquake that occurs once every 475 years = major earthquake with a 10% probability of occurring within 50 years, or a probability of 0.211 percent) for the assumed scheduled use period (50 years = the useful life of a general building) expressed as a ratio of the replacement cost to the estimated expenses required to restore the damaged property to its pre-earthquake condition. However, the estimated loss only includes damage the earthquake causes directly to the building itself (structure, finishing, architectural equipment), and does not include damage to equipment, furniture and fixtures; losses caused by water or fire after the earthquake; compensation for victims; or collateral damage such as loss of sales caused by disruption of sales activities. The same applies hereafter. We will make investment decisions using alternative standards in the absence of PML regulations and standards in countries or regions overseas.

6. Insurance Coverage Policy

We will take out necessary fire and casualty insurance for portfolio assets to cover the risks of damage to properties from fire or accident and demands for compensatory damages from third parties.

As presented in 5. Earthquake Probable Maximum Loss (PML) above, we will comprehensively consider earthquake insurance if PML for a specific property exceeds 15 percent, taking into account the impact on the property and the portfolio as a whole in the event of an earthquake as well as the feasibility of obtaining earthquake coverage.

However, even if the PML does not exceed 15 percent, we may take out earthquake insurance for the property after comprehensively taking into account the cost effectiveness including insurance

premiums and deductibles ^(Note 6).

Note 6: As of October 25, 2016, the asset management company revised its asset management guidelines to determine its policy for taking out insurances when the individual PML value does not exceed 15 percent.

7. Environmental and Geological Conditions

In principle, we shall invest in properties for which the treatment and storage of asbestos and other hazardous substances within the buildings or the appearance and condition of soil within the premises meets the requirements under the Air Pollution Control Act and the Soil Contamination Countermeasures Act of Japan and other environmental laws and ordinances or for which relevant countermeasures have otherwise been taken. However, we may acquire properties when we can expect prompt corrective action after acquisition. For overseas assets, we will make investment decisions based on comprehensive deliberation that takes into account practical operations in the relevant country or area, in addition to compliance with environmental, geological and other standards under applicable laws and regulations.

8. Tenants

In principle, we shall confirm the social credibility of potential tenants and their economic viability by evaluating and analyzing data such as rent rates, lease terms, tenant businesses, and competitiveness. This applies to assets both in Japan and overseas.

9. Property Rights

In principle, we shall confirm ownership, leasing, surface and other property rights. For shared or leased properties, we shall comprehensively consider property characteristics to confirm that owners of such property rights have no issues (e.g., creditworthiness and reputation) and that the property has few or no restrictions on or risks to operations, management or assignment. For overseas assets, we will make investment decisions based on comprehensive deliberation that takes into account practical operations in the relevant country or area, after investigating the property-related rights in the relevant country or area.

10. Investment in Properties with Stable Operations

In principle, AEON REIT will ensure stable cash flow by investing largely in real estate that generates stable cash flow, and will not invest in real estate such as non-operating properties that are not generating cash flow because they are under development.

However, we may selectively decide to invest in properties that have experienced a short-term decline in occupancy rate in instances such as when we anticipate a swift increase in future occupancy rate and when we expect to collaborate with the AEON Group as a tenant opening stores and in leasing. We will do so after careful deliberation. The same applies to overseas assets.

4) Due Diligence Guidelines

Prior to investment in a property, the Asset Manager will conduct economic, physical and legal due diligence, generally covering the following topics. The Asset Manager will consider the appropriateness of the property by determining and evaluating issues such as factors that may inhibit the maintenance and improvement of asset value. To this end, the Asset Manager will consult engineering reports, market reports and earthquake risk-assessments prepared by third parties with research capacity and expertise, and conduct on-site investigation and hearings with scheduled assignees and others.

For investments in overseas properties, the Asset Manager will conduct due diligence ^(Note 7) using the same guidelines that are applicable to investments in Japan, taking into account the legal system and any special circumstances in the relevant country or area.

Note 7: Due diligence for overseas real estate shall include the items in the table below and also review of connections with roads and the supply of public services (e.g., water, gas, and sewage disposal services).

Economic, Physical and Legal Due Diligence of Properties

Economic due diligence	Tenant evaluation	<ul style="list-style-type: none"> • Tenant (and sublessees when needed; applicable to the following) creditworthiness (including business, operations, history, financial results and financial condition) • Status of tenant rent payments, existence of any disputes between the tenant and the current owner, or any possibility thereof • Purpose of the lease, structure of the lease agreement, terms and conditions of the lease agreement and whether it permits assignment • Past occupancy rates and rent • The percentage of each building that each existing tenant occupies and tenant distribution
	Market analysis	<ul style="list-style-type: none"> • Commercial area (population, number of households, commercial index) • Review of market rental rates and occupancy rates of similar properties in the surrounding area • Status of potential competing properties in the surrounding area • Plans for the development of new properties in the surrounding area • Tenant demand trends • Potential for attracting new tenants • Potential for property disposition (sale) • For overseas properties: review economic trends, political trends, business practices, and other issues
	Revenues	<ul style="list-style-type: none"> • Current lease structure and stability of rent • Variance between current and market rent and outlook • Potential for tenant relocation and ease of finding replacement tenants • Outlook for issues such as gaining or losing tenants and rent decreases • Medium- and long-term leasing policies of the property manager and the master lessee
	Expenses	<ul style="list-style-type: none"> • Potential for changes in taxes and public charges (e.g., expiration of tax abatement period, increase in valuation due to factors including redevelopment progress) • Structure of outsourced property management agreements, level of management provided by the property manager, appropriateness of management fees • Structure of outsourced building management agreements, level of management provided by the building manager, appropriateness of management fees • Cost of utilities and utility reimbursements from tenants • Estimated responsibility for and appropriateness of repair and renewal expenses based on historical and planned repairs and current state of disrepair • Status of reserve fund for repairs and the appropriateness of the amount of such fund (stratified ownership of a building, etc.)
Physical due diligence	Location	<ul style="list-style-type: none"> • Circumstances of streets and access to main highways • Convenience of railways and other public transport • Status of surrounding land; history of floods, fires and other disasters • Location and proximity of convenient facilities and public facilities in the surrounding area • Name recognition, reputation and size of the relevant area • Stability and growth potential of the commercial area; competitive situation; status of development of surrounding areas; potential for conversion of purpose (in the case of retail properties)
	Building, facility and specifications analysis	<ul style="list-style-type: none"> • Design, main structure, building age, architect and construction company, confirmation and inspection organization, etc. • Internal and external condition of the property • Leasable area, ceiling height, air conditioning, floor weight capacity, security systems, electric power capacity, lighting intensity, layout compatible with plotting lease, disaster prevention equipment, water supply and drainage facilities, elevating machines, parking lot and other common facilities

5) Standards for Outsourcing to Third Parties and Assessments by Third Parties

Based on our management guidelines, we have adopted standards for outsourcing and assessments to maintain the quality of outsourced services and order placement, for the fair selection of service providers and suppliers, and for renewing service provider contracts in Japan. As a general rule, however, we shall not outsource asset management services, which have been entrusted to the Asset Manager. For overseas properties, we comply with statutory standards in the relevant country or region, and we base our decision whether and to what extent to outsource a service on a comprehensive consideration of practices in each region.

1. Outsourcing Standards for Each Type of Outsourced Service

Services are outsourced to service providers that satisfy specific standards to maintain designated quality levels for service implementation and service experience and performance according to the particular requirements of the outsourced services.

Specifically, for outsourced property management services we generally review the service provider's (1) scale; (2) ability to perform the services; (3) compliance with laws and regulations; and (4) cost.

For property management service providers outside of Japan, we do not take (1) scale into consideration. For real estate appraisal services, due diligence, and engineering reports, we review the service provider's (1) scale; (2) ability to perform the services; (3) compliance with laws and regulations; and (4) any history of misconduct on the part of the service provider. For providers of real estate appraisal services, due diligence, and engineering reports outside of Japan, we do not take (1) scale into consideration.

2. Outsourcing Conditions

When AEON REIT and the Asset Manager outsource services, the service providers are responsible for establishing the appropriate mechanisms to provide services and report to us, to maintain confidentiality, and to cooperate with ongoing monitoring efforts. However, contracted items are negotiable. The responsibilities and duties of the service providers are specified in service outsourcing agreements.

6) Forward Commitment Policies^(Note 8)

We may enter into contracts to acquire properties under which the settlement of the contract occurs one or more months following the execution of the contract. Before making a decision to enter into any

such contract, we will carefully consider the following:

- contract termination penalties contained in the contract, the impact of any such contracts on our overall portfolio profits and our level of cash distributions (including the delisting standard of the Tokyo Stock Exchange)
- the time period between the execution and settlement of the contract, potential market risks caused by changes during this period in financial and real estate market conditions, and method for funding settlement.

Note 8: The purchase agreements for the overseas properties we intend to acquire are forward commitment contracts. We determine the advisability of executing these agreements after individually considering the risks associated with executing them.

7) Operation and Property Management Policies

We follow the policies and standards set forth below in operating and managing assets acquired in Japan. The standards for operating and managing assets acquired overseas will be based on, and generally be the same as, the standards used in Japan.

1. Basic Policy

Our goal is to achieve stable earnings over the medium-to-long term, maintain and improve the value of our portfolio, and enhance tenant satisfaction. We will therefore maintain and increase rental revenue and occupancy rate, conduct appropriate management and repair, and optimize management costs and raise efficiency based on the approaches below.

2. Adoption of Asset Management Plan

The Asset Manager will establish an asset management plan for the management and operation of our operating properties in accordance with the Asset Manager's internal rules, such as its asset management guidelines, and will manage and operate such properties in accordance with such plan. The asset management plan will provide concrete management and operation plans for our operating properties. It will consist of (1) income and expense plans for each of our portfolio properties; (2) an income and expense plan for the company as a whole that is based on those for each prop-

erty; and (3) other plans. The asset management plan will be reviewed for adoption by the Investment Committee following approval by the Compliance Officer.

The asset management plan will also be reviewed for adoption by the Compliance Committee after approval by the Investment Committee if deemed necessary by the Compliance Officer.

In principle, formulating the asset management plan above will involve the review of detailed information for each of our operating properties in cooperation with the support companies and the property manager.

In principle, the asset management plan will be reviewed every fiscal period and amended as appropriate, and may be amended from time to time as necessary.

3. Leasing Policy

When we acquire retail and related properties operated by the AEON Group, our basic policy will be to enter into a master lease agreement for the entire property with an AEON Group company as the lessee at the time of acquisition. The policy will be the same for assets acquired overseas.

We will utilize property managers to the maximum extent possible, share information with the master lessee, survey and identify market trends, and investigate appropriate leasing terms for individual properties.

When entering into lease agreements with the master lessees, the Asset Manager will confirm the creditworthiness of the master lessees, check for relationships with anti-social forces including end tenants, and make comprehensive determinations concerning the possibility of lease renewals.

4. Policies Concerning Selection of Property Managers and Monitoring

We will select property managers that we believe can contribute to raising our overall profitability. We will take into consideration the property manager's real estate operation and management experience and capabilities, performance with the target property, feasibility of carrying out operations in accordance with the operating plan, cost levels, continuity of operations, and other relevant factors.

To carry out the above policy on an even higher level, we will outsource property management services to the AEON Group when we determine that the AEON Group would be appropriate as the property manager for the relevant retail and related properties.

In such cases, we will periodically assess the level of services, compensation amounts, and other factors relating to the outsourced services in accordance with the Rules on Transactions with Interested Parties and the Outsourcing and Evaluation Standards, and if we determine that the performance of appropriate services and compensation levels cannot be maintained, we will then consider the cancellation or non-renewal of the agreement. For additional details, please refer to 5) Standards for Outsourcing to Third Parties and Assessments by Third Parties; 1. Outsourcing Standards for Each Type of Outsourced Service above.

5. Policies Relating to Repairs and Capital Expenditures

We will make repairs and capital expenditures needed to maintain and enhance the profitability of investment assets over the medium-to-long term after consulting with the property manager, taking into consideration the condition and attributes of the investment asset, tenant needs, and other factors.

We will generally take the depreciation expenses of the entire portfolio into consideration when making decisions about repairs and capital expenditures. We will promptly implement repairs and capital expenditures that are required for raising tenant satisfaction from an operational perspective. We will also time investments to raise shopping center value to coincide with large-scale renovations when end-tenant leases expire, including plans to concurrently renew exclusive tenant space and common areas in cooperation with the master lessee.

6. Disposition Policy

In general, we expect to own properties for medium-to-long-term operation, and do not expect short-term dispositions of our properties. However, we may consider the short-term disposal of any of

our properties if we believe it would support our goal of maintaining stable revenues from our portfolio.

When disposing of properties, we will refer to the opinions of third parties such as appraisers, and will comprehensively assess factors including the impact on our overall portfolio after considering issues including market research reports, examples of similar transactions, and the future profitability of the property in question.

8) Financing Policies

1. Equity Finance

We may issue additional investment units to acquire or repair properties, return tenant leasehold and security deposits, pay our operating expenses, repay debt, or other purposes. With the objective of stable long-term growth, we will flexibly issue new units with due consideration of the potential for dilution of our investment units. Dilution refers to reduced voting rights, net income and distributions per share as a result of the issue of new units.

2. Debt Finance

We may take on borrowings, including in the call money market, or issue investment corporation bonds to obtain capital largely to acquire or repair properties; pay dividends; obtain required operating capital; and repay borrowings, including tenant leasehold and security deposits, loans, and short- and long-term investment corporation bonds (collectively, "investment corporation bonds") in order to help us steadily increase operating assets and operate our assets efficiently and consistently. However, the use or the purpose of funds raised through the issuance of short-term investment corporation bonds must be within the scope prescribed in laws and regulations. We may only obtain loans from qualified institutional investors as specified by the Financial Instruments and Exchange Act (Law No. 25 of 1948, as amended) and by Article 67, Paragraph 15 of the Act on Special Measures Concerning Taxation (Law No. 26 of 1957, as amended).

The maximum amount of each loan and each issue of investment corporation bonds shall be ¥1 trillion, and the aggregate amount of all such debt

shall not exceed ¥1 trillion. In general, we intend to obtain unsecured and unguaranteed financing. However, we may obtain loans or issue investment corporation bonds by collateralizing our properties.

When investing in overseas real estate, we may obtain loans denominated in local currency. We may also procure funds in Japanese yen and convert the funds into local currency based on market conditions and other factors at the time of procurement.

A. Ratio of interest-bearing liabilities to total assets and loan-to-value (LTV) ratio ^(Note 9)

We will consider our external and internal growth strategies while maintaining a strong financial base with a conservative ratio of liabilities to assets. We have set an upper limit of 60 percent for our LTV ratio, and generally intend to operate with an LTV ratio of approximately 50 percent. We may, however, temporarily exceed the 60 percent threshold as a result of property acquisitions or other events.

Note 9:
$$\text{LTV} = \frac{\text{Interest-bearing debt} + \text{Leasehold and security deposits}}{\text{Total assets}}$$

B. Extended loan maturities and fixed interest rates

We commit to loan maturities according to cash flow conditions based on tenant lease terms and content. We also consider extended loan maturities and fixed interest rates to reduce various risks and operate properly.

C. Bank formation with a focus on megabanks and diversification of financing sources and methods

We use the AEON Group's creditworthiness when obtaining loans, with the goal of appropriately diversifying lender financial institutions with a focus on megabanks. We also diversify debt financing by comprehensively considering market conditions and financial position in using indirect and direct financing methods that include the issuance of investment corporation bonds.

3. Derivative Transactions

We may use derivatives mainly to hedge the interest-rate risk associated with loans and other debt in light of economic conditions and interest rate

movements.

We may also use derivatives to hedge the foreign-exchange risk associated with investments in overseas real estate, largely for foreign-currency receivables such as rent and payables.

4. Use of Leasehold and Security Deposits

Leasehold and security deposits that we receive from tenants are a stable, low-cost source of capital that we may use effectively.

We also hold cash and deposits in amounts deemed appropriate in light of factors including our commitment lines to address various financial needs including repair expenses; capital expenditures; distributions; minor debt repayments; working capital for our operations; refunding leasehold deposits; and real estate-related asset purchases.

5. Credit Ratings

As of the date of this publication, we have obtained an AA- long-term issuer rating from Japan Credit Rating Agency, Ltd. This rating is not a rating of our investment units. We have made no request for the investment units to receive a credit rating from a credit rating agency and have no plans for such a credit rating to be provided or submitted for inspection by a credit rating agency.

6. Investment Policy for Surplus Funds

We carefully manage surplus funds based on due consideration of the interest rate environment, cash flow and the safety and liquidity of the investment.

9) Information Management and Disclosure Policy

1. We maintain transparency for investors and make timely, appropriate disclosure of the information investors need for investment decisions. Our policy for timely and appropriate disclosure involves considering the transparency and comprehensibility of information and meeting investor needs with disclosure that is not legally required.

2. We have structured a system for aggregating and quickly disclosing accurate and useful information to provide opportunities for investors to fairly access information.
3. We appropriately disclose information specified by the Act Concerning Investment Trusts and Investment Corporations, the Financial Instruments and Exchange Act, the Tokyo Stock Exchange, and the Investment Trusts Association, Japan in the required format.

2. Target Investments

1) Asset Types Targeted for Investment

1. We invest in the assets listed below in accordance with the basic policies specified in Article of Incorporation 27.

A. Real estate

- B. The assets listed below (collectively, "Real estate equivalents"; Real estate and Real estate equivalents are collectively referred to as "Real estate, etc.")

- (i) Real estate leasehold interests
- (ii) Surface rights
- (iii) The assets listed in (1) or (2) (i) or (ii) pursuant to the foreign laws and regulations
- (iv) Trust beneficiary interests in a trust that has as trust assets real estate, real estate leasehold interests, surface rights, or assets listed in (iii) (including blanket trusts in which cash incidental to the real estate is also entrusted)
- (v) Trust beneficiary interests in a trust that has cash as its initial trust asset, the purpose of which is managing trust assets by investing in real estate, real estate leasehold interests, surface rights, or assets listed in (iii)
- (vi) Equity interests in anonymous associations related to real estate (equity interests in contracts that provide for distribution of earnings from the

management of the assets listed in (1) real estate and (2) (i) through (v) that one party invests for a counterparty to manage)

- (vii) Trust beneficiary interests of a trust that has cash as its initial trust assets, the purpose of which is managing trust assets by investing primarily in the assets listed in (vi)
- (viii) Assets having a nature similar to assets listed in (iv) through (vii) structured in accordance with foreign laws and regulations

- C. The following securities, the purpose of which is investment primarily in Real Estate, etc. (including the rights that should be indicated in the subject securities/certificates in instances in which securities/certificates indicating the interests are not issued) (collectively "Real Estate-Backed Securities;" and the Real Estate, etc. and the Real Estate-Backed Securities are referred to collectively as the "Real Estate-Related Assets")

- (i) Preferred equity securities (as defined in the Act on Securitization of Assets, Law No. 105 of 1998, as amended ("Asset Securitization Act"))
- (ii) Beneficiary certificates (as defined in the Act Concerning Investment Trusts and Investment Corporations ("Investment Trusts Act"))
- (iii) Investment securities (as defined in the Investment Trusts Act)
- (iv) Beneficiary certificates of specific purpose trusts (as defined in the Asset Securitization Act)
- (v) Equity interests in anonymous associations (equity interests in anonymous associations as defined in Article 2, Paragraph 2, Item 5 of the Financial Instruments and Exchange Act ("FIEA"))
- (vi) Assets having a nature similar to assets listed in (i) through (v) structured in accordance with foreign laws and regulations

2. We invest in the specified assets listed below in addition to the specified assets listed in 1 above

A. Other specified assets

- (i) Deposits
- (ii) Call loans
- (iii) Japanese national government bonds (as defined in the FIEA)
- (iv) Japanese regional government bonds (as defined in the FIEA)
- (v) Corporate bonds issued under special Acts (as defined in the FIEA)
- (vi) Specified corporate bonds as prescribed in the Asset Securitization Act (as defined in the Asset Securitization Act)
- (vii) Corporate bonds (as defined in the FIEA, excluding corporate bonds with new share subscription rights)
- (viii) Negotiable certificates of deposit
- (ix) Trust beneficiary certificates for loan trusts (as defined in the FIEA)
- (x) Commercial paper (as defined in the FIEA)
- (xi) Monetary claims (as defined in the Order for Enforcement of the Act on Investment Trusts and Investment Corporations Cabinet Order No. 480 of 2000, as amended (“Investment Trusts Act Enforcement Order,” excluding those falling under (xiv))
- (xii) Share certificates (as defined in the FIEA)
- (xiii) Securities or certificates issued by a foreign country or foreign party, with the nature of those securities or certificates listed in (iii) through (vii) or (xi), (x) or (xii)
- (xiv) Monetary claims against the corporation holding overseas real estate
- (xv) Trust beneficiary interests in a trust that has cash as its initial trust assets, the purpose of which is managing the trust assets by investing primarily in the assets listed in (i) through (xii)
- (xvi) Securities (securities pursuant to Article 3, Paragraph 1 of the Investment Trusts

Act Enforcement Order, same hereinafter; excluding securities enumerated above)

- B. Interests in derivative transactions (for the purposes of this paragraph, as defined in the Investment Trusts Act Enforcement Order)

- C. Facilities generating renewable energy (as defined in the Investment Trusts Act Enforcement Order)

3. In addition to the above, we may invest in the following rights, etc., the acquisition of which is deemed necessary or useful in connection with Real Estate-Related Assets, etc. or in light of the investment perspective as defined in Article of Incorporation 28

- A. Trademark rights, etc. based on the Trademark Act (trademarks or the exclusive or non-exclusive right to use trademarks)

- B. Copyrights, etc. as defined in the Copyright Act

- C. Movables (as defined in the Civil Code, excluding assets falling under facilities generating renewable energy)

- D. Rights to use hot spring water sources as prescribed by the Hot Springs Act and facilities associated with these hot springs

- E. Specified contributions (as defined in the Asset Securitization Act)

- F. Equity interests in partnerships as defined in the Civil Code (excluding assets enumerated above)

- G. Casualty insurance policies and rights or profits associated with them

- H. Carbon dioxide equivalent quotas or other similar assets or emission rights (including emission rights for greenhouse gases) based

on the Act on Promotion of Global Warming Countermeasures

I. Easements

J. Rights, etc. structured according to the laws and regulations of relevant countries and regions when we make investments in our primary area of Real Estate, etc. based on our Articles of Incorporation (including rights that, according to the laws and regulations of the relevant country or region, are the same as or similar to beneficiary interests in trusts that have Real Estate, etc., as the primary investment asset, but excluding assets enumerated above)

K. Shares issued by Japanese and foreign corporations for the exclusive management of assets in countries outside of Japan (including other contributions, but excluding assets enumerated above)

L. In addition to the above, we may invest in the other rights, the acquisition of which is deemed necessary or useful in connection with investments in Real Estate-Related Assets, etc. or in light of the investment perspective as defined in the Articles of Incorporation

4. In addition to the above, we may acquire other rights that we hold in conjunction with our organization management.

5. As provided for in the Order for Enforcement of the Act on Investment Trusts and Investment Corporations, we may also acquire equity interests in corporations holding overseas real estate.

“Rules relating to Real Estate Investment Trusts and Real Estate Investment Corporations” stipulated by the Investment Trusts Association (Article of Incorporation 35, Paragraph 1).

1. The distributable amount (“Distributable Amount”) arising from the management of our Investment Assets will be the amount of profit prescribed in Article 136, Paragraph 1 of the Investment Trusts Act.

2. We shall determine the amount of distributions, which shall exceed 90% of the distributable profit (but, in any case, not to be greater than the Distributable Amount); (however, if there is a change in the method of calculation due to the amendment to laws and regulations, then the amount as calculated after such change), as defined in the special taxation measures for investment corporations as set forth in Article 67-15, Paragraph 1 of the Act on Special Measures Concerning Taxation (the “Special Taxation Measures for Investment Corporations”). However, this shall not apply if there is a loss for tax purposes or if there are no taxable earnings because of a tax loss carryforward, and the amount will be reasonably determined by the Investment Corporation. Furthermore, we may set aside funds from the Distributable Amount for the long-term repair reserve, reserve for payment and reserve for distributions, as well as similar reserves and allowances that we consider necessary to maintain or increase the value of our investment assets. In addition to the foregoing, the investment corporation may set aside funds for reserves for adjustments of temporary difference, etc. and reverse allowances for adjustments of temporary difference, etc.

3. The amount of profit not allocated to distributions and retained and the amount of profit earned by the Closing Date shall be invested in accordance with the stipulations of our basic investment policy and investment perspective, etc.

3. Distribution Policy

1) Distribution Policy

AEON REIT shall, in principle, make distributions pursuant to the following policy, and shall follow the

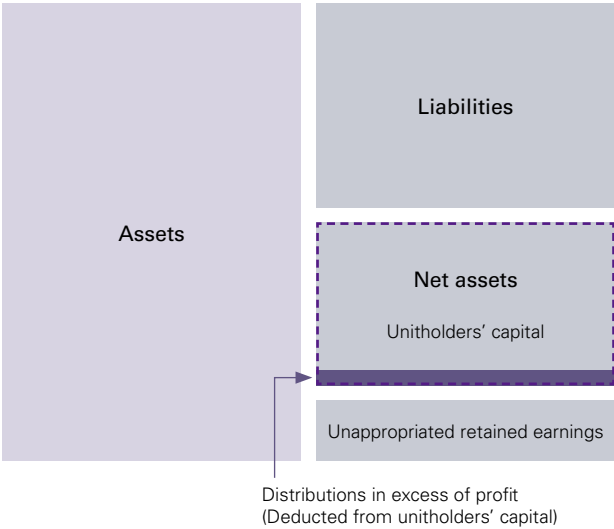

2) Distributions in Excess of the Amount of Profit

In cases that we determine to be appropriate, based on trends in the economic environment, the real estate market and the leasing market, etc., the state of its assets or the state of its finances or other similar reasons, or, in the case where we can reduce corporation tax, etc. that may be imposed on us, we may make distributions of funds in excess of the Distributable Amount, consisting of the distribution amount specified in 2. above plus an amount that is no greater than 60 percent of the depreciation costs for the relevant fiscal period. Further, if, in the case described above, the amount of funds distributed does not satisfy the requirements for Special Taxation Measures for Investment Corporations stipulated in laws and regulations, we may determine an amount of funds with the objective of satisfying such requirements. Furthermore, we have made it our policy to continually make distributions in excess of profit (Note 10, 11) each fiscal period, up to 60% of the depreciation costs for the relevant fiscal period, after careful consideration is given to trends in the economic environment, the real estate market and the leasing market, etc., the state of its assets or the state of its finances or other similar reasons. However, we may decide not to make any distributions in excess of profit if we deem it inappropriate after considering trends in the economic environment, the real estate market and the leasing market, etc., the state of its assets or the state of its finances or other similar reasons (Article of Incorporation 35, Paragraph 2).

When we make distributions in excess of profit, we take into account the amount of capital expenditures that will be required for maintaining and enhancing competitiveness of the assets we own, as well as our financial conditions, etc.

Note10: Distributions in excess of profit refer to distributions made by our judgment on top of distributions made to the extent of profit of the relevant fiscal period, and differ from refund of investment units conducted at the request of each unitholder in the case of investment units of an open-end investment corporation. Note that AEON REIT is a closed-end investment corporation that is not allowed to conduct refund of investment units at the request of its unitholders.

Note11: When conducted, distributions in excess of profit are illustrated as below.

3) Method for Distribution of Funds

Distributions of funds shall be in cash and, in principle, shall be made within three months from the Closing Date to unitholders or to pledgees of investment units registered or recorded in the last registry of unitholders as of the Closing Date in accordance with the number of investment units (Article of Incorporation 35, Paragraph 3).

4) Period of Exclusion of Right to Demand Distributions

Once three full years have elapsed from the date of the start of the payment of a distribution, we will no longer be obligated to make the payment of such distribution. No interest shall accrue on unpaid distributions (Article of Incorporation 35, Paragraph 4).

4. Restrictions on Investment

1) Restrictions on Investment Prescribed by the Articles of Incorporation

The restrictions on investment prescribed by Article of Incorporation 30 are as follows.

- 1. Monetary claims and marketable securities as defined in the Investment Trusts Act Enforcement Order (excluding Real Estate, etc., Real Estate-Backed Securities, and the specified assets in Article of Incorporation 29,

Paragraph 2, (1) (xi) of the preceding article and the securities prescribed in Paragraph 2, (1) (xvi) of the preceding article shall not be the subject of active investments, and in cases where there are surplus funds, investments shall be made in such assets, taking security and liquidity of investment into consideration, and in other cases, investment shall be made taking into consideration relevance with Real Estate-Related Assets.

2. Investment in rights relating to derivative transactions as defined in the Investment Trusts Act Enforcement Order shall be limited to investment for the purpose of hedging against risks including interest rate risk arising from our liabilities and currency risk relating to our investment assets.

2) Investment Limits Pursuant to the FIEA and Investment Trusts Act Enforcement Order

The investment corporation is subject to investment limits pursuant to the FIEA and Investment Trusts Act Enforcement Order. Main restrictions are as follows.

1. Limits on Asset Management by the Asset Manager

A registered investment corporation must entrust the management of its assets to an asset management company.

The asset management company is prohibited from performing certain acts related to the business of managing the assets of said investment corporation. As a result, an investment corporation is subject to certain investment restrictions. Main prohibited acts are as follows.

A. Internal transactions

Transactions between an asset management company and its directors or officers are prohibited (FIEA, Article 42, Paragraph 2, Item 1), except for certain cases specified in Article 128 of the Cabinet Office Ordinance regarding the FIEA (2011, Cabinet Office Ordinance No. 52, as amended; "Ordinance 52") that are considered unlikely to result in failure to protect the interests of unitholders, damage fair

transactions or discredit the financial instruments business.

B. Reciprocal transactions with managed assets

Transactions between asset management companies of investment corporation assets are prohibited (FIEA, Article 42, Paragraph 2, Item 2), except for certain cases specified in Ordinance 52, Article 129 that are considered unlikely to result in failure to protect the interests of unitholders, damage fair transactions or discredit the financial instruments business.

C. Transactions for the benefit of third parties

An asset management company may not undertake transactions in certain financial instruments, indices or options based on fluctuations in the price, index, value, or amount of consideration related to transactions in the assets of an investment corporation, without a legally valid reason, with the objective of benefiting a third party other than the investment corporation or said investment (FIEA, Article 42, Paragraph 2, Item 3).

D. Transactions harmful to the interests of the investment corporation

An asset management company may not undertake transactions that are other than upon normal terms and conditions for such transactions, and further, such transactions upon said conditions would be harmful to the interests of the investment corporation (FIEA, Article 42, Paragraph 2, Item 4).

E. Prohibition of sales and purchases when separate management is not ensured

An asset management company may not undertake transactions (transactions listed in FIEA Article 2, Paragraph 8, Items 1 and 2 and Items 7 through 9) in connection with money invested or contributed for the following rights or securities (including types specified by a Cabinet Order) when said money is not managed separately as stipulated by government ordinance from the property that belongs to the entity that conducts the relevant business to be operated using such money, or any other property pertaining to other businesses conducted by that entity (FIEA Article 40.3).

- (i) Rights listed in FIEA Article 2, Paragraph 2, Items 5 and 6
- (ii) Marketable securities are limited to those listed in FIEA Article 2, Paragraph 1, Item 21 (FIEA Enforcement Order; 1968, Cabinet Order No. 321, as amended; the “FIEA Enforcement Order”)
- (iii) Rights listed in FIEA Article 2, Paragraph 2, Item 7 (limited to those listed in the FIEA Enforcement Order)

F. Other transactions defined by cabinet office ordinances

In addition to the above, the asset management company may not undertake the following actions as defined by Cabinet Office Ordinance that are considered likely to result in failure to protect the interests of unitholders, damage fair transactions or discredit the financial instruments business (FIEA Article 42, Paragraph 2, Item 7, FIEA Article 44, Paragraph 3, Item 1, Ordinance 52, Article 130)

- (i) Transactions among the auditors, officers and employees of an asset management company (excluding all items listed in Ordinance 52, Article 128)(Ordinance 52, Article 130, Paragraph 1, Item 1)
- (ii) Transactions for the benefit of the investment management company or third parties that would be harmful to the interests of the investment corporation (Ordinance 52, Article 130, Paragraph 1, Item 2)
- (iii) Transactions for the benefit of third parties (including the parent or subsidiary companies of the asset management company) that are not necessary according to investment management policies, the financial condition of assets under management, or market conditions (Ordinance 52, Article 130, Paragraph 1, Item 3).
- (iv) Asset management that introduces unfair restrictions or other limitations from external entities (Ordinance 52, Article 130, Paragraph 1, Item 4).
- (v) The sale or purchase of investment securities, or similar transactions, with the objective of unfairly inflating transaction amounts or artificially inflating prices (Ordinance 52, Article 130, Paragraph 1, Item 5).

- (vi) Transactions between third parties and their agents (excluding specific transactions to which all rights holders have agreed pursuant to advance explanation of the rationale for the transaction provided by the asset management company) (Ordinance 52, Article 130, Paragraph 1, Item 6).
- (vii) Other activities prohibited by Cabinet Office Ordinance

2. Limitation on Acquisition of the Same Issue of Units

A registered investment corporation may not acquire the same units issued by a corporation in excess of 50/100 of total number of said issued and outstanding units. (Investment Trusts Act Article 194, Investment Trusts Act Enforcement Order Article 221).

3. Restriction on Acquisition of Own Units and Acceptance of Pledge

An investment corporation may not acquire units issued by itself, or accept them for the purpose of pledge, unless it acquires units issued by itself in the following cases (Investment Trusts Act Article 80, Paragraph 1):

A. when the investment corporation acquires its investment units for value by entering into agreements with unitholders (Article of Incorporation 5, item 2);^(Note 12)

Note12: The Investment Trusts Act was amended on June 12, 2013 with the addition of the exception for the acquisition of own units as presented in A above. The revised Investment Trusts Act will be enforced by government ordinances within 18 months of its June 19, 2013 promulgation date. In accordance with the amended Investment Trusts Act, AEON REIT has amended its Articles of Incorporation with a provision to permit the acquisition of its own units with compensation pursuant to the agreement of unitholders (Article of Incorporation 5, Paragraph 2). However, the provision in Article of Incorporation 5, Paragraph 2 becomes effective on the effective date of the revision to the Investment Trusts Act that allows an investment corporation to acquire its own units with compensation pursuant to the agreement of unitholders (Article of Incorporation 41, Paragraph 1).

B. when the units are acquired from another investment corporation as the surviving entity of a merger;

C. when purchasing units pursuant to the provisions of the Investment Trusts Act; or

D. when purchasing units pursuant to other government ordinances regarding the Investment Trusts Act.

4. Restriction on Acquisition of Parent Corporation's Units by Subsidiary Corporation

An investment corporation (subsidiary), a majority of the units of which is owned by another investment corporation (parent), may not acquire the units of such parent investment corporation except in the following cases (Investment Trusts Act, Article 81, Paragraph 1, Item 2):

A. when the units are acquired from another investment corporation as the surviving entity of a merger; or

B. when purchasing units pursuant to other government ordinances regarding the Investment Trusts Act of Japan.

When either a parent investment corporation and its subsidiary investment corporation or its subsidiary investment corporation owns a majority of the units issued by another investment corporation, the other investment corporation is considered to be a subsidiary of the said parent investment corporation (Investment Trusts Act, Article 81, Paragraph 4).

3) Other Investment Restrictions

1. Subscription and Margin Trading of Securities

The investment corporation may not subscribe to, or conduct margin trading of, securities.

2. Borrowing and Investment Corporation Bonds

A. The investment corporation may borrow funds, including in the call market, or issue investment corporation bonds to support steady growth in investment assets and efficient, stable asset management. The investment corporation may procure funds to acquire assets; pay repair costs, other maintenance and management expenses, or distributions; for its operations; or to repay

its debts, including the refund of leasehold deposits and security deposits, the repayment of borrowing and the redemption of investment corporation bonds (including short-term investment corporation bonds). However, the use or the purpose of funds raised through the issuance of short-term investment corporation bonds must be within the scope prescribed in laws and regulations. Furthermore, the investment corporation may only borrow from qualified institutional investors as prescribed by the FIEA (limited to institutional investors as defined in Article 67-15 of the Special Taxation Measures Act; Article of Incorporation 36, Paragraph 1).

B. The investment corporation may collateralize investment assets as collateral when borrowing or issuing investment corporation bonds as prescribed in the preceding paragraph (Article of Incorporation 36, Paragraph 2).

C. The maximum amount of each loan and each issue of investment corporation bonds shall be ¥1 trillion, and the aggregate amount of all such debt shall not exceed ¥1 trillion (Article of Incorporation 36, Paragraph 3).

3. Concentration of Investment

Concentration of investment is not legally restricted. Please refer to 1. Investment Policies above for policies related to investment that is diversified by the intended purpose and location of real estate.

4. Investment in Other Funds

The Articles of Incorporation do not restrict investments in other funds (investment units or the trust beneficiary certificates of investment trusts).

Notes: 1. Operating revenues do not include consumption tax.

2. Calculations used above are as follows:

- **NOI from property leasing:** Revenues related to real estate leasing business – Expenses related to real estate leasing business + Depreciation
- **FFO:** Net income (excluding Gain or Loss on sale of investment properties) + Depreciation
- **Ratio of FFO to total cash distributions:** Total cash distributions (including distribution in excess of retained earnings) ÷ FFO × 100
- **FFO per unit:** FFO ÷ Total number of investment units issued and outstanding
- **Payout ratio:** Distribution per unit (excluding distribution in excess of retained earnings) ÷ Net income per unit × 100. The payout ratio for the 14th Period and 18th Period was calculated as follows because of the issue of new investment units: Total cash distributions (excluding distribution in excess of retained earnings) ÷ Net income × 100
- **ROA:** Income (loss) before income taxes / (Total assets at beginning of period + Total assets at end of period) ÷ 2 × 100
- **ROE:** Net income (loss) / (Net assets at beginning of period + Net assets at end of period) ÷ 2 × 100
- **Equity ratio:** Net assets at end of period ÷ Total assets at end of period × 100

- **LTV:** (Interest-bearing debt + Tenant leasehold and security deposits) ÷ Total assets × 100
 - **Occupancy rate:** Total leased area ÷ Total leasable area at the end of the period. The occupancy rate is 100 percent as of January 31, 2022 because AEON REIT operated all properties under master lease agreements.
3. Number of days in the period refers to the number of days of actual asset management.
 4. The translations of Japanese yen amounts into U.S. dollar amounts are included solely for the convenience of readers outside Japan and have been made at the rate of ¥115.44 to \$1, the approximate rate of exchange at January 31, 2022.
 5. The figure includes AEON MALL SEREMBAN 2 that AEON REIT owns through the Overseas SPC.
 6. The figure represents the net value obtained by subtracting the deduction from unitholders' capital.

Operations and Results

(1) Overview

AEON REIT was established on November 30, 2012 in accordance with the Act on Investment Trusts and Investment Corporations (Act No. 198 of 1951, as amended; hereinafter, the "Investment Trusts Act"), with AEON Reit Management Co., Ltd. (hereinafter, the "Asset Manager") serving as the organizer. AEON REIT was listed on the Real Estate Investment Trust Securities Market (J-REIT market) of the Tokyo Stock Exchange (securities code: 3292) on November 22, 2013.

In the fiscal period under review (18th fiscal period), AEON REIT issued new investment units in August and September 2021 (total paid-in amount: ¥24,916 million). Using the procured funds in combination with ¥43,100 million in new debt financing, AEON REIT acquired 4 properties comprising AEON MALL Takasaki, AEON MALL Narita, AEON MALL Shinkomatsu and AEON MALL Sagayamato (total acquisition price: ¥50,235 million).

The real estate held by AEON REIT as of January 31, 2022 totaled 47 properties in Japan and overseas, including AEON MALL SEREMBAN 2 it owns through an overseas real estate holding corporation established in Malaysia (hereinafter, the "Overseas SPC"), with a total acquisition price of ¥447,023 million. Total leasable area is 4,056,102.68 m² and the occupancy rate of the entire portfolio is 100.0% as of the same date.

(2) Operating Environment and Performance

Operating Environment

In the fiscal period under review, the Japanese economy saw the real GDP growth rate (first preliminary estimates) for October through December 2021 rise by 1.3% quarter on quarter, the first positive growth in two quarters, under the continued impact of the novel coronavirus infection (COVID-19). This was because consumer spending recovered in accordance with an increase in people's mobility as the government's declaration of a state of emergency was lifted and the spread of COVID-19 calmed, and because restrictions on the supply of automobiles started to be relaxed, among other reasons. In Malaysia, the real GDP for the fourth quarter of 2021 rose 3.6% year on year, mainly due to consumer spending, which constitutes more than half of the GDP, leading normalization in accordance with the expansion of economic activities.

The real estate investment market remained on a strong note through the 18th fiscal period, as it did in the previous fiscal period, against the backdrop of continued monetary easing. Although the market may feel overheated, differing by asset type and by area due to the impact of COVID-19, it should become ever more important going forward to discern the profitability of individual properties and timeliness of transactions in consideration of interest trends, etc.

In the J-REIT market, investor sentiment cooled after entering 2022, given concerns about interest rate hikes and higher volatility. This and other factors kept the market on a weak note, with the Tokyo Stock Exchange (TSE) REIT Index standing at 1,946.81 points (based on closing price) at the end of the 18th fiscal period.

Performance

In the 18th fiscal period, AEON REIT continued steady external growth as it acquired 4 properties comprising AEON MALL Takasaki, AEON MALL Narita, AEON MALL Shinkomatsu and AEON MALL Sagayamato (total acquisition price: ¥50,235 million), which are the community infrastructure assets, in August 2021 using funds procured through issuance of new investment units as well as through new debt financing. With the acquisition of these properties, AEON REIT expanded its portfolio size to ¥447,023 million.

With regard to internal growth, AEON REIT conducted revitalization work for AEON MALL Suzuka where the section that had been used for events or as a rest area was changed to an eatery and shop area and locally popular stores and nationwide brand restaurants were invited. At AEON Ueda Shopping Center, exterior wall painting was conducted for image enhancement and functional improvement of the property, thereby achieving upward revision of rents there. As such, AEON REIT is promoting investments aimed at reinforcing competitiveness as well as maintaining and enhancing the functions of its properties.

Financing

(a) Issuance of new investment units

AEON REIT conducted additional issuance of new investment units to allocate funds for part of the acquisition of AEON MALL Takasaki, AEON MALL Narita, AEON MALL Shinkomatsu and AEON MALL Sagayamato (total acquisition price: ¥50,235 million); issuance of new investment units through public offering (163,000 units) with August 17, 2021 as the payment date, and issuance of new investment units through third-party allotment (8,150 units) with September 14, 2021, as the payment date. Accordingly, the total number of investment units issued and outstanding as of the end of the 18th fiscal period ended January 31, 2022, is 2,044,467 units.

(b) Debt financing, etc.

In the 18th fiscal period, AEON REIT conducted debt financing totaling ¥43,100 million on August 4, 2021, to partly fund the acquisition of the 4 properties it acquired in August 2021, and related expenses. Of the debt financing, AEON REIT made early repayment of the short-term loans payable amounting to ¥23,800 million on September 21, 2021, using the proceeds that were paid in on August 17, 2021, as described in (a) Issuance of new investment units above, and combining with cash on hand.

Moreover, AEON REIT conducted debt financing of ¥19,100 million in total to fund the refinance of borrowings of ¥19,100 million maturing on October 20, 2021.

As of January 31, 2022, AEON REIT had a balance of interest-bearing debt totaling ¥179,100 million, with the LTV ratio (the ratio of the balance of interest-bearing debt plus tenant leasehold and security deposits and tenant leasehold and security deposits in trust to total assets held by AEON REIT) standing at 44.7%.

The ratio of long-term interest-bearing debt (the ratio of long-term interest-bearing debt (including the current portion of long-term loans payable) to total interest-bearing debt) was 100.0% as of January 31, 2022. The ratio of fixed-rate debt (the ratio of interest-bearing debt with fixed interest payment (including interest-bearing debt with interest fixed through swaps) to total interest-bearing debt) was 89.2% as of the same date. Together with the abovementioned LTV, these figures indicate that AEON REIT has maintained a sound and conservative financial structure. AEON REIT works to diversify the repayment dates and extend maturities of interest-bearing debt with an aim to further reinforce its financial base.

As of January 31, 2022, AEON REIT had the following credit rating.

Credit Rating Agency	Rating type	Credit Rating	Outlook
Japan Credit Rating Agency, Ltd.	Long-term issuer credit rating	AA-	Stable

Initiatives on Sustainability

AEON REIT is making endeavors for Environment, Social, and Governance (ESG) awareness. It works to reduce environmental burden and coordinate and cooperate with its stakeholders in pursuit of realizing a sustainable society as its corporate social responsibility. During the 18th fiscal period, in an effort to further promote its initiatives on ESG, AEON REIT identified its materiality (important agendas) and expressed support for the recommendations of the Task Force on Climate-related Financial Disclosures (TCFD).

In addition, with the endeavors it has made to date recognized by external institutions, AEON REIT obtained “Green Star” in the GRESB (Global Real Estate Sustainability Benchmark) Real Estate Assessment in October 2021, marking the sixth consecutive year of recognition with the highest ranking. AEON REIT also received “Five Star,” which is given only to high-ranking entities on overall score, as it did in last year.

As for assessment for properties, AEON REIT obtained DBJ Green Building Certification for 7 properties in total (first obtainment for 4 properties and re-obtainment for 3 properties) in January 2022. As of the end of the 18th fiscal period (January 31, 2022), AEON REIT has obtained the DBJ Green Building Certification for 28 properties, BELS certification for 1 property, and CASBEE Certification for Buildings for 4 properties.

Other than the above, the Asset Manager was certified by the CERTIFIED 2022 Health & Productivity Management Outstanding Organizations Recognition Program (for SMEs) in March 2022, marking the third consecutive year with the certification. Both AEON REIT and the Asset Manager will continue to take initiatives on ESG issues in a proactive manner.

Results and Cash Distribution

As a result of the above operations, AEON REIT posted operating revenue of ¥19,928 million, operating income of ¥7,691 million, ordinary income of ¥6,767 million, and net income of ¥6,660 million for the 18th fiscal period ended January 31, 2022. Note that AEON REIT recorded ¥106 million in total, which was spent on work related to damage caused by an earthquake that occurred on October 7, 2021, with the epicenter in the northwestern part of Chiba Prefecture, as extraordinary losses.

As for cash distribution for the 18th fiscal period, distribution per unit came to ¥3,315 by combining ¥6,660 million in unappropriated retained earnings and ¥116 million reversed from distribution reserve (the amount obtained by deducting ¥76 million, which is an increase in net income through asset management, from ¥192 million arrived at by adding the effect of adoption of the Accounting Standard for Asset Retirement Obligations as non-operating expenses to extraordinary losses comprising loss on disaster and provision for loss on disaster).

Furthermore, AEON REIT shall distribute cash in excess of earnings for each fiscal period as a rule pursuant to the policy for cash distribution in excess of earnings as stipulated in Article 35-2 of its Articles of Incorporation. For the 18th fiscal period, however, with ¥350 million in distribution reserve it has provided for securing stable distributions, AEON REIT will not distribute cash in excess of earnings in accordance with Article 136 in the Investment Trusts Act.

Distribution Information

Pursuant to the policy for cash distribution set forth in Article 35, paragraph 1 of the Articles of Incorporation of AEON REIT, distributions shall be limited to the amount within profits, and also the amount of earnings in excess of an amount equivalent to ninety hundredths (90/100) of distributable profits, as stipulated in Article 67-15 of the Act on Special Measures Concerning Taxation. In consideration of this policy, AEON REIT will pay distributions of profits at the total amount of ¥6,777,408,105, which is obtained by combining ¥6,660,669,847 in unappropriated retained earnings and ¥116,738,258 reversed from provision of distribution reserve (the amount obtained by deducting ¥76,025,206, which is an increase in net income through asset management, from ¥192,763,464 arrived at by adding the effect of adoption of the Accounting Standard for Asset Retirement Obligations as non-operating expenses to extraordinary losses comprising loss on disaster and provision for loss on disaster), and which is the amount that does not exceed this combined amount and is the greatest value among integral multiples of 2,044,467, which is the total number of investment units issued and outstanding. Furthermore, AEON REIT shall distribute cash in excess of earnings for each fiscal period as a rule pursuant to the policy for cash distribution in excess of earnings as stipulated in Article 35-2 of its Articles of Incorporation. For the 18th fiscal period, however, with ¥350,316,058 in distribution reserve it has provided for securing stable distributions, AEON REIT will not distribute cash in excess of earnings in accordance with Article 136 in the Investment Trusts Act.

Lowest	134,000	69,600	106,200	136,200	142,000

Assets, Liabilities and Net Assets

Total assets as of January 31, 2022 increased ¥46,720 million from July 31, 2021 to ¥432,702 million. While current assets decreased ¥839 million, total property and equipment increased ¥28,347 million to ¥325,779 million mainly due to acquisition of 4 properties. Intangible assets (leasehold rights in trust) also increased by ¥19,080 million to ¥73,612 million.

Current liabilities increased ¥21,555 million from July 31, 2021 to ¥42,430 million as current portion of long-term loans payable increased, while non-current liabilities decreased ¥417 million to ¥153,777 million, resulting in an increase of ¥21,137 million in total liabilities to ¥196,207 million.

AEON REIT had no short-term loans payable as of January 31, 2022. Current portion of long-term loans payable totaled ¥40,100 million and long-term loans payable (including new debt financing) totaled ¥88,000 million as of the same date, with investment corporation bonds totaling ¥51,000 million.

Consequently, interest-bearing debt as of January 31, 2022 totaled ¥179,100 million, an increase of ¥19,300 million from July 31, 2021. Tenant leasehold and security deposits in trust were ¥14,320 million, increasing ¥828 million from the end of the previous fiscal period.

Net assets increased ¥25,582 million from July 31, 2021 to ¥236,495 million mainly as a result of an increase in unitholders' capital as AEON REIT conducted a capital increase through public offering in the 18th fiscal period.

Capital Expenditures during the 18th Period

The following table shows the major items of capital expenditures (those exceeding ¥30 million per work) AEON REIT conducted during the 18th fiscal period for the properties it owned as of January 31, 2022. The capital expenditures for the 18th fiscal period amounted to ¥1,504 million. Combined with ¥982 million in repairs and maintenance that was classified as expenses as well as ¥61 million in loss on disaster from the earthquakes with the epicenter off the coast of Fukushima Prefecture and in the northwestern part of Chiba Prefecture, respectively, AEON REIT conducted construction works totaling ¥2,548 million in the current fiscal period.

Property Name (Location)	Purpose	Period	Cost of Construction Works (Millions of yen)
AEON MALL Kushiro-Showa (Kushiro City, Hokkaido Pref.)	Renewal of air-conditioning units	From May 2021 to October 2021	¥ 59
AEON MALL Morioka (Morioka City, Iwate Pref.)	Renewal of air-conditioning units	From November 2021 to December 2021	51

Notes: 1. The above table includes fees paid for transactions with related parties of the Asset Manager during the 18th Period.

2. In addition to the fees above, the amount paid to AEON DELIGHT CO., LTD. for repair work during the 18th Period was ¥356,342 thousand.

3. Interest expenses include financial fees, interests paid and accrued interests.

4. Amounts do not include consumption taxes.

Information Required under Article 22(2)(d) of the EU Alternative Investment Fund Managers Directive (AIFMD)

(1) Material Changes in Information Listed in Article 23 of AIFMD during the Financial Period Covered by the Report (Six-month fiscal period ended January 31, 2022)

In the section under the heading “Techniques it may employ and all associated risks” in Article 23(1)(a), we added a risk related to our policy to make distributions to our unitholders in excess of our retained earnings.

In the section under the heading “Description of the main legal implications of the contractual relationship entered into for the purpose of investment, including jurisdiction, applicable laws, and the existence or not of any legal instruments providing for the recognition and enforcement of judgments in the territory where the AIF is established” in Article 23(1)(c), we added a description of AEON TOHOKU Co., Ltd. with which we entered into affiliate support agreements.

Risk Factors

An investment in our units involves significant risks. The principal risks with respect to investment in AEON REIT are as follows.

Property and Business Risks

- Any adverse conditions in Japan’s retail industry or the Japanese economy could adversely affect us.
- We are dependent on the AEON Group for substantially all of our rental income; therefore, our financial condition and ability to make distributions may be adversely affected by lease terminations by, the bankruptcy or insolvency of, or a downturn in the business of the AEON Group.
- Our reliance on the Sponsor and other AEON Group companies could have a material adverse effect on our business.
- There are potential conflicts of interest between us and certain AEON Group companies, including the Asset Manager.
- As the first J-REIT to hold a property outside of Japan, we are subject to uncertainties to which other J-REITs may not be subject, which may make it difficult to evaluate our prospects.
- We may not be able to acquire properties to execute our growth and investment strategy in a manner that is accretive to earnings.
- Illiquidity in the real estate market may limit our ability to grow or adjust our portfolio and our master lease agreements could make our investments more illiquid.
- The past experience of the AEON Group in the Japanese real estate market is not an indicator or guarantee of our future results.
- The high concentration of retail properties in our portfolio may entail special risks not shared by J-REITs that invest in a more diversified range of real estate or real estate-related assets.
- Any inability to obtain financing for future acquisitions could adversely affect the growth of our portfolio.
- Liquidity and other limitations on our activities under debt financing arrangements may adversely affect our business, financial condition and results of operations.
- Increases in prevailing market interest rates may increase our interest expense and may result in a decline in the market price of our units.
- A high LTV ratio may increase our exposure to changes in interest rates and have a material adverse effect on our business, financial condition and results of operations.
- We may suffer impairment losses relating to our properties.
- Decreases in master lessees’ leasehold deposits and/or security deposits may increase our funding costs.

- Any property defect may adversely affect our business, financial condition and results of operations.
- We may suffer large losses in the case of a natural or man-made disaster.
- We rely on expert appraisals and engineering, environmental and seismic reports, which are subject to significant uncertainties.
- We rely on industry and market data that are subject to significant uncertainties.
- We rely on third parties to evaluate the compliance of properties that we own or may acquire with building codes and earthquake standards, and we may suffer significant costs or incur sizable liabilities if any non-compliance is subsequently discovered.
- The environmental assessments of our properties made prior to our ownership may not uncover all environmental liabilities, and Japanese laws subject property owners to strict environmental liabilities.
- Entering into forward commitment contracts or contracts to purchase properties under development may expose us to contractual penalties and market risks.
- Unitholders have limited control over changes in our investment policies.
- Our success depends on the performance of service providers to which we are required to assign various key functions.
- Our performance depends on the efforts of key personnel of the Asset Manager.
- J-REITs and their asset managers are subject to tight supervision by the regulatory authorities.
- The Malaysian ringgit may be subject to exchange controls.
- The Asset Manager has limited experience in operating a J-REIT.
- Our policy to make distributions to our unitholders in excess of our retained earnings is not employed by most J-REITs and is thus subject to uncertainties.

Taxation Risks

- Our failure to satisfy a complex series of requirements pursuant to Japanese tax regulations would disqualify us from certain taxation benefits and significantly reduce our cash distributions to our unitholders.
- If the Japanese tax authorities disagree with the interpretations of the Japanese tax laws and regulations we used for prior periods, we may be forced to pay additional taxes for those periods.
- We may not be able to benefit from reductions in certain transfer taxes enjoyed by qualified J-REITs.
- Changes in Japanese tax laws may significantly increase our tax burden.
- We may be subject to taxes in countries other than Japan due to our investments outside of Japan and our investors may not be able to take advantage of available credits associated with such taxes.

Legal and Regulatory Risks

- Our ownership rights in some of our properties may be declared invalid or limited.
- Our leasehold or subleasehold interests may be terminated or may not be asserted against a third party in some cases.
- Properties for which third parties hold leasehold interests in the land and own the buildings on the land may subject us to various risks.
- Some of the properties we acquire may be designated as reserved land (horyu-chi) or provisionally allocated land (kari-kanchi) and our rights relating to such properties may be affected by the operation of the Land Readjustment Act.
- We may from time to time own properties in the form of stratified ownership (kubun shoyu) interests and our rights relating to such properties may be affected by the rights and intentions of other owners.
- Some of the properties we may acquire may be held in the form of a property or trust beneficiary co-ownership interest, and our rights relating to such properties may be affected by the intentions of other owners.
- We may hold interests in some properties through preferred shares of a special purpose company (tokutei mokuteki kaisha) in the future, and illiquidity in the market for such shares may limit our ability to sell our

interest, and our rights relating to the properties held by such special purpose companies may be limited.

- We may hold interests in some properties through Japanese anonymous association (tokumei kumiai) agreements, and our rights relating to such properties may be limited.
- Our Malaysian property or any part of it may be acquired compulsorily.
- We will own most of our properties through trust beneficiary interests and may suffer losses as a trust beneficiary.
- There are important differences regarding the rights of unitholders in a J-REIT compared to those of shareholders in a corporation.
- Tax increases or adverse changes in applicable laws may affect our potential liabilities relating to our properties and operations.

Risks Related to the Impact of Infectious Diseases and Epidemics, Etc.

The outbreak of COVID-19 has disrupted business operations worldwide and had a materially adverse effect on the global economy, including in Japan, and its impact may continue to worsen. The performance of retail properties owned by AEON REIT may deteriorate due to decreased foot traffic; a decline in demand for those properties may result in their lower market value; and self-isolation measures may harm the quality of the services offered by the Asset Manager and its tenants.

Periodic disclosure for financial products referred to in Article 8(1) of Regulation (EU) 2019/2088 and Article 6 of Regulation (EU) 2020/852

Product name: AEON REIT Investment Corporation. (“AEON REIT”)
Legal entity identifier: AEON Reit Management Co., Ltd. (“Asset Manager”)

The Asset Manager and AEON REIT are hereinafter referred to collectively as “we,” “us” or “our” unless noted otherwise.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ____% <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective: ____%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Our basic philosophy is to contribute to the enrichment of people’s lives and local communities through investment in retail properties and other related properties that form the backbone of local communities. To this end, we strive to invest in properties that we deem to be “community infrastructure assets,” which include (i) community platforms offering a range of tenants that are visited on a daily basis, (ii) properties that respond flexibly to the changes in the needs of the people to ensure continuous operations, and (iii) properties that are essential to the development of local communities. As part of the AEON Group, we are committed to the “AEON Sustainability Principle,” “AEON Sustainable Procurement Policy and Sustainability Procurement Goals for 2020,” and the “AEON Group Food Waste Reduction Targets,” which were established and revised to reflect the goals set by the United Nations Sustainable Development Goals and the Paris Agreement of 2015. Since March 2018, we are also committed to the AEON Group’s “AEON Decarbonization Vision,” in which we aim to achieve a carbon-free society by 2040 by promoting energy saving and renewable energy. To realize both our philosophy and our sustainability goals, we believe that initiatives that promote environmental, social, and governance (“ESG”) goals are important and necessary part of our investment decision.

We implement various environmental initiatives at our properties including:

- *Setting energy consumption reduction goals in all properties in our portfolio.* We aim to reduce energy consumption by 1% from our properties per year in the medium to long term, from 2020 to 2024. We aim to achieve this goal with the environmental initiatives listed below.

- *Reducing greenhouse gas emissions from our properties.* We aim to reduce greenhouse gas emissions by replacing environmentally damaging coolants used in our refrigerators and freezers with natural refrigerants (the first Japanese retailer to do so). All new malls that opened on and after FY2015 use natural refrigerants, and pre-existing malls will continue to update the refrigerants used one by one. We also install energy saving equipment such as LED lighting and efficient air-conditioning systems at our properties. All 41 of our properties in Japan as of June 30, 2021 and all 45 of our properties as of January 31, 2022 were equipped with LED lighting. We had also increased usage of renewable energy through installation of solar panels at 18 of the 41 of our properties in Japan as of June 30, 2021 and at 19 of the 45 of our properties in Japan as of January 31, 2022.
- *Promoting the usage of electric cars by installing charging stations.* We had installed charging stations at 36 of our properties as of June 30, 2021 and at 42 of our properties as of January 31, 2022.
- *Renovating properties to achieve resource conservation, high-efficiency, and low environmental impact.* We continue to install greenery at our properties such as green walls, trees, and garden mists as a supplement to traditional heating and cooling solutions. We also replace old restroom equipment with newer equipment that encourages energy and water savings. We also promote the use of well water at our properties in an effort to conserve water. Our properties are also equipped with recycling containers to collect resources that we reuse to manufacture products sold at our properties.
- *Promoting “green procurement” in the entire supply chain for real estate management.* Green procurement is a term for product and service procurement efforts that involve preferentially selecting recycled goods and other environmentally conscious products, as well as suppliers engaged in initiatives that contribute to reducing the burden placed on the environment.
- *Including “Green Lease” provisions in our agreements.* We include environmental provisions, which we refer to as “Green Lease” provisions, in the leases with our tenants. Our Green Lease provisions include a clause that require our tenants to cooperate with us in implementing environmental measures. Approximately 22% as of June 30, 2021 and 20% as of January 31, 2022 of our leases with our tenants contained such Green Lease provisions.
- *Selecting electric power companies and property management companies in light of their environmental considerations, among other factors.* We select electric power companies based on the cost, stability of supply, and their CO₂ emission, among other factors. We select property management companies based on their ability to build, manage, and renovate buildings. We also consider their policies on environmental considerations, industrial safety, and health for employees, and their understanding of and compliance with the Asset Manager's sustainability policy. We also ask selected property management companies to make proposals to reduce energy consumption and environmental impact. All property managers are evaluated once a year.
- *Promoting the usage of reusable shopping bags.* The AEON Group has been running the “Bring Your Own Shopping Bag Campaign” since 1991, helping reduce CO₂ emissions and waste, as well as conserving petroleum used in the manufacturing of single-use plastic bags. For the fiscal year ended February 28, 2021, the AEON Group achieved a reduction of 2,940 million single-use plastic bags.
- *Promoting the planting of trees.* After planting over 10 million trees on November 2013, AEON Group launched the Forest Circulation Program, in which it aims to “plant, nurture, and utilize” trees.

We implement various social initiatives at our properties including:

- *Supporting local communities with properties that have high public utility.* We have built and managed facilities as well as invited tenants to our properties that help the local community. These properties include healthcare facilities, government offices, day-care centers, banks, and post offices, as well as multipurpose halls for use by local governments and other groups. Some of our properties have improved the customers' convenience by installing docks for bike-sharing programs in cooperation with local governments.

- *Business-continuity-planning and providing assistance to the community during an emergency.* Our properties have been improved and are prepared to provide assistance to the local community in the event of natural disasters and other emergencies that could disrupt the local community. AEON Co., Ltd. was the first retailer to be designated as a “Designated Public Institution” under the Basic Act on Disaster Management. We have disaster prevention agreements with local governments for all 42 retail properties in our portfolio in Japan, and some of them are registered as disaster prevention centers. We are also prepared to provide drinking water and electricity to assist the reconstruction process of local communities hit by an emergency. We have also increased the resiliency of our properties to minimize the damage caused by earthquakes and to accelerate the restoration of the properties’ operations to provide services to the local communities hit by an emergency. These efforts include installing road-heating systems to mitigate snow damage as well as constructing smoke-proof hanging walls that slow down the flow of smoke in the event of a fire; 97% of our properties had completed such construction as of June 30, 2021 and 95% as of January 31, 2022. We also conduct regular emergency drills to improve our properties’ abilities to deal with disasters. We are also cooperating with the Japan Ground Self-Defense Force and Japan Airlines in order to set up temporary shelters at our retail properties in Japan. During the COVID-19 pandemic, our properties have conducted daily COVID-19 countermeasures to provide safety to customers.
- *Supporting local communities by facilitating local groups’ activities as well as art and cultural events.* We hold events at our properties that pertain to the local community, such as the celebration ahead of the Morioka Sansa Odori festival at our Morioka property and the goldfish scooping competition at our Yama-to-Koriyama property. We also support the activities of many organizations, including with their local activities. For example, our Itamikoya property has supported a local group with a rice-planting event.
- *Providing support to tenants and their employees.* We provide amenities such as break rooms and day-care centers for tenant employees. We had also implemented barrier-free working environments by installing ramps, barrier-free restrooms, as well as barrier-free vending machines in all 38 of our retail properties in Japan as of June 30, 2021 and 42 as of January 31, 2022.
- *Promoting diversity.* We had installed genderless restrooms in 37 of our 38 retail properties in Japan as of June 30, 2021 and 41 of our 42 retail properties as of January 31, 2022. We have also committed to increasing female managers in our properties, aiming to fill 50% of all managerial roles with female employees in adherence to the goals set by the AEON Group. Our properties have also supported the hiring of disabled persons, aiming to have more than 3% of our work force, or more than 10,000 positions, be filled by disabled persons in FY2020.
- *Providing employees with opportunities to promote their work-life balance and career development.* The Asset Manager has an employee-friendly environment with initiatives such as conducting employee satisfaction surveys, conducting employee stress checks, establishing a whistleblowing system, providing access to AEON Group’s benefit program, and providing a comfortable and safe work environment by taking steps to prevent infectious diseases. We also hold regular training sessions to develop our human resources, and have a support system for those who wish to obtain professional licenses such as real estate notary, ARES master, and certified real estate consulting master. We also introduced a cumulative investment purchase program for the employees, which helps enhance employee awareness of improvements in results and contributes to the sustainable growth of the Investment Corporation. The Asset Manager was certified by the CERTIFIED 2022 Health & Productivity Management Outstanding Organizations Recognition Program (for SMEs) in March 2022.

● *How did the sustainability indicators perform?*

We use the following indicators to measure the attainment of the E/S characteristics we promote.

- *Overall ESG performance.* To independently assess the overall ESG performance of our portfolio, we submit to the annual review by the Global Real Estate Sustainability Benchmark (“GRESB”). In 2021, we were

awarded a 5-Star GRESB Rating for the second consecutive year, as well as a “Green Star” certification for the sixth consecutive year. We also received an “A” grade from Sumitomo Mitsui Banking Corporation (“SMBC”), according to SMBC’s funding program based on an evaluation of environmental considerations in recognition of our commitment to environmentally aware initiatives in asset management.

- *Environmental certification of individual properties.* To track the environmental performance of our properties, we use certifications issued by third party organizations (such as the Development Bank of Japan’s Green Building Certification (“DBJ Certification”), Building Energy-efficiency Labeling System (“BELS”) certification, Comprehensive Assessment System for Built Environment Efficiency (“CASBEE”) certification, the Leadership in Energy and Environmental Design (“LEED”) certification, and any other third party certification whose ratings are equivalent to the previously mentioned certifications) to rate our properties. We call our properties that receive any of the certifications listed above a Green Qualified Asset and a Sustainability Qualified Asset. For DBJ Certification, we consider a property to have the environmental certification if it received a three stars or higher out of the five-star ranking system of the DBJ Certification. For CASBEE, we consider a property to have the environmental certification if it received a B+ Rank or higher out of the CASBEE ranking system featuring Rank S (excellent), Rank A (very good), Rank B+ (good), Rank B– (slightly inferior) and Rank C (inferior). For BELS, we consider a property to have the environmental certification if it received a three stars or higher out of the five-star ranking system of BELS. For LEED, we consider a property to have the environmental certification if it received a Silver, Gold, or Platinum certification under the LEED ranking system. About 83.3% as of July 31, 2021, and 84.9% as of January 31, 2022, of our buildings based on number of properties were Green Qualified Assets and Sustainability Qualified Assets.
- *Climate change initiatives – energy consumption and efficiency and greenhouse gas emissions:* We track and monitor the total annual energy consumption and CO₂ emissions of our properties. We achieved a 7.6% reduction in energy consumption and a 10.4% CO₂ emissions in FY2020 compared to the base year of FY2019. We aim to achieve a 5% reduction in each of these metrics over the five years from 2020 to 2024.
- *Social initiatives – local community:* We offer certain properties in our portfolio as disaster prevention centers for nearby local communities. We had entered into disaster prevention agreements with local governments for all 38 retail properties in our portfolio in Japan as of June 30, 2021 and 42 retail properties as of January 31, 2022.

● *...and compared to previous periods?*

See above.

● *What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?*

Not applicable.

● *How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?*

Not applicable.

How did this financial product consider principal adverse impacts on sustainability factors?

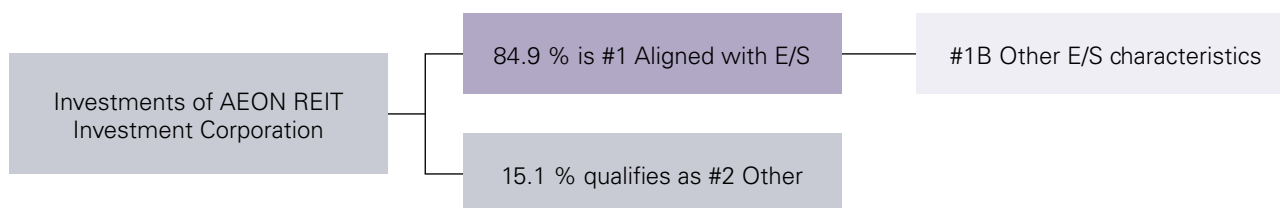

We believe that investment decisions that negatively affect climate or other environment-related resources, or have negative implications for society, can have a significant impact to risk and value creation for our unitholders. To this end, we consider the principal adverse impacts of our investment decisions on the above sustainability factors throughout all major steps of the investment decision and management process throughout the lifecycle of the properties in our portfolio.

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country
Retail properties and other related properties that form the backbone of local communities	Real estate	100	Japan

What was the proportion of sustainability-related investments?

As of July 31, 2021, 83.3% of the properties in the portfolio were Green Qualified Assets or Sustainability Qualified Assets, and 16.7% were nonqualified assets (which are the 12 properties in our portfolio in Japan). As of January 31, 2022, 84.9% of the properties in the portfolio were Green Qualified Assets or Sustainability Qualified Assets, and 15.1% were nonqualified assets (which are the 12 properties in our portfolio in Japan). We plan to increase the number of qualifying assets with reducing each environmental metric by 5% in the five years from FY2020 to FY2024.

● *What was the asset allocation?*● *In which economic sectors were the investments made?*

We intend to invest primarily in retail and related properties managed by Aeon Group, which has successfully developed its retail business as an integral part of the communities in which it operates. We believe that these properties and facilities form the backbone of the local communities and their retail business infrastructure. We aim to ensure stable income in the medium to long term and steady portfolio growth by investing in retail and related properties that contribute to betterment of individual lives and local communities.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

● *What was the share of investments made in transitional and enabling activities?*

Not applicable.

● *How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?*

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under “other,” what was their purpose and were there any minimum environmental or social safeguards?

As of January 31, 2022, 12 of our properties in our portfolio in Japan were not green or sustainability qualified. Of the 12 properties, 10 were long-term retail properties and 2 were logistics facilities. We adopt environmental measures with respect to these unqualified properties and aim to acquire certification accordingly.

Some of the properties we choose to acquire may not be Green Qualified Assets or Sustainability Qualified Assets at the time, but even in those cases, we only invest in community infrastructure assets and related facilities as described above, such as those that create local jobs, serve as disaster prevention centers, or serve as community venues for the surrounding residents, and we actively promote investments in properties with high social value.

We do not consider investing in properties that do not meet the standards for soil contamination and other environmental contamination in accordance with the Air Pollution Control Act and the Soil Contamination Countermeasures Act of Japan and other environmental laws and ordinances from our portfolio. However, from time to time we acquire properties not meeting the standards as long as they are deemed fixable promptly after acquisition. We also invest in properties that have been constructed, reinforced, or otherwise modified to meet applicable new earthquake resistance building codes or have been deemed to have seismic capacity equivalent thereto. We invest so that the overall probable maximum loss (PML) of our portfolio in Japan does not exceed 10%. PML indicates the level of damage that may result from an earthquake of the assumed maximum size for the assumed scheduled use period, expressed as a ratio of the replacement cost to the estimated expenses required to restore the damaged property to its pre-earthquake condition. For those properties with PML that exceed 15%, we consider taking out earthquake insurance.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

As described in greater detail above, we implement various environmental initiatives at our properties including the following:

- Setting energy consumption reduction goals in all properties in our portfolio;
- Reducing greenhouse gas emissions from our properties;
- Promoting the usage of electric cars by installing charging stations;
- Renovating properties to achieve resource conservation, high-efficiency, and low environmental impact;
- Promoting “green procurement” in the entire supply chain for real estate management;
- Including “Green Lease” provisions in our agreements;
- Selecting electric power companies and property management companies in light of their environmental considerations, among other factors;
- Promoting the usage of reusable shopping bags;
- Promoting the planting of trees;
- Supporting local communities with properties that have high public utility;
- Business-continuity-planning and providing assistance to the community during an emergency;
- Supporting local communities by facilitating local groups’ activities as well as art and cultural events;
- Providing support to tenants and their employees;
- Promoting diversity; and
- Providing employees with opportunities to promote their work-life balance and career development.

As described in greater detail above, we implement various social initiatives at our properties including the following:

- Providing support to tenants and their employees;
- Supporting local communities and social development;
- Disaster countermeasures;
- Promoting universal design;
- Respecting human rights; and
- Providing support for employees.

How did this financial product perform compared to the reference benchmark?

Not applicable.

● *How does the reference benchmark differ from a broad market index?*

See above.

● *How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?*

See above.

● *How did this financial product perform compared with the reference benchmark?*

See above.

● *How did this financial product perform compared with the broad market index?*

See above.

AEON REIT Investment Corporation

Statements of Cash Distributions

For the six-month periods ended July 31, 2021 and January 31, 2022

Appropriation of Retained Earnings

Pursuant to the policy on the distribution of funds in Article 35, Paragraph 1 of the Articles of Incorporation of the Company, distributions shall be limited to the amount of profit and exceed 90% of the distributable profit of the Company as stipulated in Article 67-15 of the Act on Special Measures Concerning Taxation.

For the six month period ended July 31, 2021, the Company decided to distribute ¥5,994,614,400, which is obtained by combining ¥5,870,533,431 in unappropriated retained earnings and ¥124,080,969 reversed from distribution reserve (the amount obtained by adding ¥118,476,800, which is calculated by subtracting the extraordinary income comprising insurance income for disasters from the extraordinary losses comprising loss on disaster and provision for loss on disaster, and ¥69,432,064, which is a temporary decrease in rental income due to temporary suspension of operations at AEON MALL Shinjuku North Wing for renovation work, and deducting ¥63,827,895 which is an increase in net income through asset management) and which is the amount that does not exceed the combined amount and is the greatest value among integral multiples of 1,873,317, which is the number of investment units issued and outstanding; provided, however, that the Company will not pay the portion of the amount that exceeds the profits defined in Article 35, Paragraph 2 of its Articles of Incorporation.

For the six month period ended January 31, 2022, the Company decided to distribute ¥6,777,408,105, which is obtained by combining ¥6,660,669,847 in unappropriated retained earnings and ¥116,738,258 reversed from provision of distribution reserve (the amount obtained by deducting ¥76,025,206, which is an increase in net income through asset management, from ¥192,763,464 arrived at by adding the effect of adoption of the Accounting Standard for Asset Retirement Obligations as non-operating expenses to extraordinary losses comprising loss on disaster and provision for loss on disaster), and which is the amount that does not exceed this combined amount and is the greatest value among integral multiples of 2,044,467, which is the total number of investment units issued and outstanding. Furthermore, AEON REIT shall distribute cash in excess of earnings for each fiscal period as a rule pursuant to the policy for cash distribution in excess of earnings as stipulated in Article 35-2 of its Articles of Incorporation. For the 18th fiscal period, however, with ¥350,316,058 in distribution reserve it has provided for securing stable distributions, AEON REIT will not distribute cash in excess of earnings in accordance with Article 136 in the Investment Trusts Act.

Distributions of retained earnings and disposition of undisposed loss for the six-month periods ended July 31, 2021 and January 31, 2022 are as follows:

	For the six-month period ended		
	July 31, 2021	January 31, 2022	January 31, 2022

The accompanying notes form an integral part of these financial statements.

AEON REIT Investment Corporation

Additional Information

For the six-month periods ended July 31, 2021 and January 31, 2022

1. Organization

AEON REIT Investment Corporation (the “Company”) is a real estate investment trust mainly investing in retail properties that form local communities’ retail business infrastructure.

The Company was established on November 30, 2012, with AEON Reit Management Co., Ltd. as the organizer under the Act on Investment Trusts and Investment Corporations of Japan (the “Investment Trusts Act”) and registered with the Kanto Local Finance Bureau on December 20, 2012.

On November 22, 2013, the Company was listed on the real estate investment trust securities market of Tokyo Stock Exchange.

In the fiscal period under review (18th fiscal period), AEON REIT issued new investment units in August and September 2021 (total paid-in amount: ¥24,916 million). Using the procured funds in combination with ¥43,100 million in new debt financing, AEON REIT acquired 4 properties comprising AEON MALL Takasaki, AEON MALL Narita, AEON MALL Shinkomatsu and AEON MALL Sagayamato (total acquisition price: ¥50,235 million).

As a result, the real estate held by the Company as of January 31, 2022 totaled 47 properties in Japan and overseas, including AEON MALL SEREMBAN 2 it owns through an overseas real estate holding corporation (hereinafter, the “Overseas SPC”), with a total acquisition price of ¥447,023 million. Total leasable area is 4,056,102.68 m² and the occupancy rate of the entire portfolio is 100.0% as of the same date.

2. Basis of Presentation

The Company maintains its books of accounts in accordance with the provisions set forth in the Investment Trusts Act, the Financial Instruments and Exchange Act of Japan and other related accounting regulations and in conformity with accounting principles generally accepted in Japan, which are different in certain respects as to application and disclosure requirements of International Financial Reporting Standards (hereinafter “IFRS”). The accompanying financial statements have been compiled from the financial statements that were filed with the Director of the Kanto Local Finance Bureau as required by the Financial Instruments and Exchange Act of Japan.

The accompanying financial statements are stated in Japanese yen, the currency of the country in which the Company is incorporated and operates. As permitted by the regulation under the Financial Instruments and Exchange Act of Japan, amounts of less than one thousand yen have been omitted. As a result, the totals shown in the accompanying financial statements in yen do not necessarily agree with the sums of the individual amounts.

The translations of Japanese yen amounts into U.S. dollar amounts are included solely for the convenience of readers outside Japan and have been made at the rate of ¥115.44 to \$1, the approximate rate of exchange at January 31, 2022. Such translations should not be construed as representations that the Japanese yen amounts have been, could have been, or could in the future be, converted into U.S. dollars at that or any other rate.

The Company does not prepare consolidated financial statements. The Company has six-month fiscal periods ending January 31 and July 31 of each calendar year.

3. Income Taxes

The asset and liability approach is used to recognize deferred tax assets and liabilities for the expected future tax consequences of temporary differences between the carrying amounts and the tax bases of assets and liabilities. Deferred taxes are measured by applying currently enacted tax laws to the temporary differences.

4. Revenue Recognition

Revenue from leasing of retail space includes fixed rental revenue and the amount equivalent to fixed asset tax, city planning tax, and depreciable asset tax, which are all recognized on an accrual basis over the life of each lease.

AEON REIT Investment Corporation

Notes to Financial Statements

For the six-month periods ended July 31, 2021 and January 31, 2022

1. Notes on Assumption of Going Concern

Not applicable

2. Summary of Significant Accounting Policies

(a) Valuation Standard and Method for Securities

Securities

Shares of subsidiaries and associates

Shares issued by an overseas real estate holding corporation, as set forth in Article 221-2-1 of the Ordinance for Enforcement of the Act on Investment Trusts and Investment Corporations, are stated utilizing the moving-average cost method.

(b) Depreciation Method for Non-Current Assets

1) Property and Equipment

Property and equipment are stated at cost. Depreciation of property and equipment is computed by the straight-line method over the following useful lives:

Buildings in trust	3 to 51 years
Structures in trust	3 to 35 years
Tools, furniture and fixtures in trust	5 to 6 years

2) Intangible assets

Intangible assets are amortized by the straight-line method.

The useful lives of intangible assets are as follows:

Leasehold interests in trust	38 to 46 years
------------------------------	----------------

3) Long-term Prepaid Expenses

Long-term prepaid expenses are amortized by the straight-line method.

(c) Accounting for Deferred Assets

1) Investment Unit Issuance Expenses

Investment unit issuance expenses are capitalized and amortized by the straight-line method over three years.

2) Investment Corporation Bond Issuance Costs

Investment corporation bond issuance costs are capitalized and amortized by the straight-line method over the respective terms of the investment corporation bonds.

(d) Accounting for Provisions

Provision for loss on disaster

Of the expenses for restoration works for the properties that were damaged by an earthquake off the coast of Fukushima Prefecture, the amount that was reasonably estimated as of the end of the fiscal period ended July 31, 2021, was recorded as allowance for loss on disaster.

Of the expenses for restoration work for the properties damaged by an earthquake with the epicenter in the northwestern part of Chiba Prefecture, the amount that was reasonably estimated as of the end of the fiscal period ended January 31, 2022, was recorded as allowance for loss on disaster.

(e) Foreign Currency Translation

Receivables and payables denominated in foreign currencies are translated into yen at the exchange rate in effect at the balance sheet date, and differences arising from the translation are included in the statements of income.

(f) Revenue and Expenses**1) Standards for revenue recognition**

The details of main performance obligations concerning revenue generated from contracts between AEON REIT and its customers and the ordinary time to fulfil said performance obligations (ordinary time to recognize revenue) are as follows.

Utilities income

AEON REIT recognizes utilities income in accordance with the supply of water, etc. to the lessee who is a customer based on the lease agreement of real estate and related agreements. Of the utilities income, in the case that AEON REIT deems itself to be an agent, the net amount obtained by deducting the amount it pays to other parties from the amount it receives as charges for water, etc. supplied by the said other parties is recognized as revenue.

2) Property-related Taxes

Property-related taxes, such as fixed asset tax, city planning tax, and depreciable asset tax, are imposed on real property held on a calendar year basis. The amount of such taxes assessed and determined by the local government that corresponds to the respective fiscal period is charged to expense as expenses related to rent business.

Generally, the seller of a property is liable for property-related taxes for the calendar year in which the property is disposed and is reimbursed by the buyer for a tax amount calculated from the date of disposal through the end of the calendar year. The tax amount is not charged to expense but capitalized as part of the acquisition cost for the respective property.

Capitalized property-related taxes for the six-month period ended July 31, 2021 were ¥8,007 thousand. Capitalized property-related taxes for the six-month period ended January 31, 2022 are ¥198,278 thousand (\$1,717 thousand)

(g) Hedge Accounting

The Company enters into derivative transactions for the purpose of hedging risks defined in the Articles of Incorporation of the Company pursuant to the regulations that stipulate the basic policy of risk management. The Company hedges the risks of fluctuation in interest rates on borrowings using interest rate swaps.

The Company applies the exceptional treatment where interest rate swaps that qualify for hedge accounting and meet specific criteria are not remeasured at fair value but differentials paid or received under swap agreements are recognized and included in interest expenses or income. The Company does not assess hedge effectiveness since the interest rate swaps meet the criteria required for such exceptional treatment.

(h) Cash and Cash Equivalents

Cash and cash equivalents consist of cash on hand, cash in trust, demand deposits, deposits in trust, and highly liquid short-term investments that are readily convertible, bear little risk in price fluctuations, and mature within three months from the date of acquisition.

(i) Other Significant Items Fundamental to Preparing the Financial Statements**1) Accounting Treatment for Trust Beneficiary Rights in Real Estate**

For trust beneficiary rights in real estate, all assets and liabilities with respect to assets in trust as well as all revenues generated and expenses incurred with respect to assets in trust are recorded in the relevant accounts for balance sheets and statements of income of the accompanying financial statements.

2) Consumption Taxes

National and local consumption taxes are excluded from transaction amounts.

3. Significant Accounting Estimates**For the six-month period ended July 31, 2021**

Not applicable

For the six-month period ended January 31, 2022**Impairment Losses of Non-Current Assets****(1) Balance of subject assets**

	(Thousands of yen)	(Thousands of U.S. dollars)
Impairment losses	Not applicable	
Property and equipment	¥325,779,474	\$2,822,067
Intangible assets	73,612,539	637,669

(2) Information on the nature of significant accounting estimates for identified items

In accordance with the Accounting Standard for Impairment of Fixed Assets, AEON REIT has adopted the accounting treatment to reduce the book value of non-current assets to a recoverable amount when the invested amount is deemed to be unrecoverable due to decline in profitability.

In adopting the accounting treatment, each property owned by AEON REIT is regarded as a single asset group, and AEON REIT determines whether it is required to recognize impairment losses when indications of impairment for the group are deemed to exist due to continued operating losses, significant declines in the market prices, and significant deterioration of the business environment, etc.

Future cash flow estimates are used to determine whether or not to recognize impairment losses. When it is determined that impairment losses should be recognized, the book value is reduced to the recoverable amount that is based on real estate appraisal value, etc. prepared by third-parties, and the reduced amount is recorded as impairment losses.

In estimating the future cash flow, items such as rent, vacancy period, occupancy rate, expenses related to rent business, property ownership period, capital expenditures and discount rate for estimating the recoverable amount are determined by comprehensively considering the market trends and transaction cases of similar properties, etc. in reference to information from outside experts, including figures set forth in real estate appraisal.

The performance and the market price of each property may be affected by the trends in the real estate rental market and real estate transaction market. Accordingly, any change in the assumptions used for the estimates may affect AEON REIT's assets and profit and loss in the following fiscal period.

4. Changes in Accounting Policies

(a) Application of Accounting Standard for Revenue Recognition, etc.

AEON REIT has applied the “Accounting Standard for Revenue Recognition” (ASBJ Statement No. 29 (revised 2020), issued on March 31, 2020) and the “Implementation Guidance on Accounting Standard for Revenue Recognition” (ASBJ Guidance No. 30 (revised 2021), issued on March 26, 2021) from the beginning of the six-month period ended January 2022, and decided to recognize revenue at the amount expected to be received in exchange for the promised goods or services when control of the goods or services is transferred to the customer. Furthermore, in accordance with the transitional treatment stipulated in Paragraph 89-3 of the Accounting Standard for Revenue Recognition, the note related to Revenue Recognition for the previous fiscal period is not presented. The impact of this change on the financial statements is immaterial.

(b) Application of Accounting Standard for Fair Value Measurement, etc.

AEON REIT has applied the “Accounting Standard for Fair Value Measurement” (ASBJ Statement No. 30, issued on July 4, 2019), etc. from the beginning of the six-month period ended January 2022, and decided to adopt the new accounting policies set forth by the said Accounting Standard, etc. going forward in accordance with the transitional treatment as stipulated in Paragraph 19 of the Accounting Standard for Fair Value Measurement and Paragraph 44-2 of the “Accounting Standard for Financial Instruments” (ASBJ Statement No. 10 (revised 2019), issued on July 4, 2019). The impact of this change on the financial statements is immaterial.

5. Changes in Presentation Methods

In view of the importance of evaluation of non-current assets, notes on “Significant Accounting Estimates” are stated from the six-month period ended January 2022.

6. Balance Sheets

The Company shall maintain its net assets of ¥50,000 thousand or more in accordance with the Investment Trusts Act.

7. Statements of Income

(a) Revenues and Expenses Related to Real Estate Leasing Business

Revenues and expenses related to real estate leasing business for the six-month periods ended July 31, 2021 and January 31, 2022 consist of the following:

	For the six-month period ended		
	July 31, 2021	January 31, 2022	January 31, 2022
	(Thousands of yen)		(Thousands of U.S. dollars)
Revenues related to real estate leasing business			
Rent revenue - real estate			
Rent	¥17,513,099	¥19,727,043	\$170,885
Other lease business revenue - real estate	65,807	62,781	543
Total revenues related to real estate leasing business	¥17,578,907	¥19,789,824	\$171,429
Expenses related to real estate leasing business			
Expenses related to rent business			
Property and facility management fees	¥ 45,664	¥ 49,326	\$ 427
Repairs and maintenance expenses	694,106	982,724	8,512
Insurance expenses	179,598	215,505	1,866

Land rent paid	2,240,910	2,591,994	22,453
Taxes and dues	2,025,214	2,024,931	17,540
Depreciation	4,695,625	5,213,564	45,162
Water charges	44,544	45,953	398
Other expenses related to rent business	8,834	15,492	134
Total expenses related to real estate leasing business	¥ 9,957,511	¥11,163,686	\$ 96,705
Operating income from real estate leasing business	¥ 7,621,395	¥ 8,626,138	\$ 74,723

(b) Breakdown of Gain on Sale of Real Estate Properties

For the six-month period ended July 31, 2021

	(Thousands of yen)
Revenue from sale of real estate property	¥53,737
Cost of real estate property sold	47,212
Other sales expenses	3,783
Gain on sale of real estate properties	¥ 2,741

For the six-month period ended January 31, 2022

Not applicable

(c) Breakdown of Dividends Received

For the six month period ended July 31, 2021, the entire amount of the profit available for dividend (RM4,353,159 (¥114,950 thousand)) based on the results of the fiscal period ended January 2021 of JAMBATAN MANSEIBASHI (M) Sdn. Bhd. was paid to AEON REIT as dividends ^(Note 3), which were calculated on the following basis.

	(Unit: RM (Thousands of yen))
Revenues	RM7,752,142 (¥197,447)
Property operating expenses	654,425 (16,668)
Other expenses	114,986 (2,928)
Unrealized gain from valuation of investment properties	(1,000,000) ((25,470))
Net profit before taxation	5,982,731 (152,380)
Net profit before taxation after deducting unrealized gain	5,982,731 (152,380)
Tax expense on net income before income taxes after deducting unrealized gain	1,629,572 (41,505)
Profit available for dividend ^(Note 3)	4,353,159 (114,950)
Dividends ^(Note 3)	RM4,353,159 (¥114,950)

Notes: 1. The table above is based on the accounting standards of Malaysia (equivalent to IFRS), although disclosure is not based on the Malaysian standards.
 2. For the exchange rate, the period-average exchange rate (RM1 = JPY25.47 (rounded down to the second decimal place)) is used.
 3. Profit available for dividend and dividends are converted to the yen value by using the forward exchange rate on June 2, 2021 of RM 1 = JPY26.40 (rounded down to the second decimal place.)

For the six month period ended January 31, 2022, the entire amount of the profit available for dividend (RM 5,236,912 (¥139,076 thousand)) based on the results of the fiscal period ended July 2021 of JAMBATAN MANSEIBASHI (M) Sdn. Bhd. was paid to AEON REIT as dividends ^(Note 3), which were calculated on the following basis.

	(Unit: RM (Thousands of yen))
Revenues	RM7,752,142 (¥204,656)
Property operating expenses	655,946 (17,316)
Other expenses	145,987 (3,854)
Unrealized gain from valuation of investment properties	— (—)
Net profit before taxation	6,950,209 (183,485)
Net profit before taxation after deducting unrealized gain	6,950,209 (183,485)
Tax expense on net income before income taxes after deducting unrealized gain	1,713,297 (45,231)
Profit available for dividend ^(Note 3)	5,236,912 (139,076)
Dividends ^(Note 3)	RM5,236,912 (¥139,076)

Notes: 1. The table above is based on the accounting standards of Malaysia (equivalent to IFRS), although disclosure is not based on the Malaysian standards.
 2. For the exchange rate, the period-average exchange rate (RM 1 = JPY 26.40 (rounded down to the second decimal place)) is used.
 3. Profit available for dividend and dividends are converted to the yen value by using the forward exchange rate on December 2, 2021 of RM 1 = JPY26.55 (rounded down to the second decimal place.)

(d) Breakdown of Extraordinary Income

For the six-month period ended July 31, 2021, the Company recorded insurance income for the assets damaged by the earthquake off the coast of Fukushima Prefecture (¥385,495 thousand).

For the six-month period ended January 31, 2022, the Company recorded no extraordinary income.

(e) Breakdown of Extraordinary Losses

For the six-month period ended July 31, 2021, the Company recorded the following extraordinary losses.

1) Loss on disaster

Losses related to the assets that were damaged by the earthquake off the coast of Fukushima Prefecture and the earthquake off the coast of Miyagi Prefecture (expenses for restoration works) were recognized as loss on disaster (¥502,835 thousand).

2) Provision for loss on disaster

With regard to the assets that were damaged by the earthquake off the coast of Fukushima Prefecture, expenses for restoration works that were reasonably estimated as of the end of the fiscal period ended July 31, 2021 (¥1,137 thousand) were recorded as provision of allowance for loss on disaster.

For the six-month period ended January 31, 2022, the Company recorded the following extraordinary losses.

1) Loss on disaster

Losses related to the assets damaged by the earthquake with the epicenter in the northwestern part of Chiba Prefecture (expenses for restoration work) were recognized as loss on disaster (¥57,198 thousand).

2) Provision for loss on disaster

With regard to the assets damaged by the earthquake with the epicenter in the northwestern part of Chiba Prefecture, expenses for restoration work that were reasonably estimated as of the end of the fiscal period ended January 31, 2022 (¥49,456 thousand) were recorded as provision of allowance for loss on disaster.

8. Statements of Changes in Net Assets

The total number of investment units which the Company is authorized to issue is 10,000,000 units, and the total number of investment units issued and outstanding as of July 31, 2021 and January 31, 2022 is 1,873,317 units and 2,044,467 units, respectively.

9. Statements of Cash Flows

(a) Cash and cash equivalents as of July 31, 2021 and January 31, 2022 consist of the following:

	As of		January 31, 2022 (Thousands of U.S. dollars)
	July 31, 2021 (Thousands of yen)	January 31, 2022 (Thousands of yen)	
Cash and deposits	¥18,185,810	¥13,989,226	\$121,181
Cash and deposits in trust	8,482,986	9,492,028	82,224
Cash and cash equivalents	¥26,668,796	¥23,481,254	\$203,406

(b) Details of material non-cash transactions

Newly recorded significant asset retirement obligations

	As of		January 31, 2022 (Thousands of U.S. dollars)
	July 31, 2021 (Thousands of yen)	January 31, 2022 (Thousands of yen)	
Amount of significant asset retirement obligations	¥—	¥86,108	\$745

10. Leases

The Company leases its retail properties to tenants. The future minimum lease payments to be received under non-cancelable operating leases of properties as of July 31, 2021 and January 31, 2022 are as follows:

	As of		January 31, 2022 (Thousands of U.S. dollars)
	July 31, 2021 (Thousands of yen)	January 31, 2022 (Thousands of yen)	
Due within 1 year	¥ 35,110,045	¥ 39,516,986	\$ 342,316
Due after 1 year	74,159,556	97,599,185	845,453
Total	¥109,269,602	¥137,116,172	\$1,187,770

11. Financial Instruments

(a) Status of Financial Instruments

(i) Policy for financial instruments

The Company's basic policy is to execute a stable, flexible and efficient financial strategy. It procures funds by borrowing, issuing investment corporation bonds (including short-term investment corporation bonds) and investment units and other means for purposes including portfolio growth through property acquisitions.

The Company enters into derivative transactions only to hedge risks such as risk of fluctuations in interest rates associated with borrowings and exchange rate fluctuation risk associated with operating receivables and payables denominated in foreign currencies.

(ii) Nature and extent of risks arising from financial instruments and risk management

Loans payable and investment corporation bonds are used mainly for acquiring real estate and trust beneficiary rights in real estate.

Tenant leasehold and security deposits in trust are deposits received from tenants under lease agreements.

Loans payable with floating interest rates are exposed to the risk of fluctuations in interest rates. However, by appropriately managing the debt ratio, etc., it is possible to limit the impact of a rise in market interest rates on the Company's operations. Furthermore, for some of the loans payable with floating interest rates, derivative transactions (interest rate swaps) are utilized as hedging instruments in order to hedge the risk of fluctuations in interest rates and to fix interest expenses. The hedge effectiveness of interest rate swaps is assessed by comparing the cumulative changes in cash flows of hedging instruments and hedged items and based on the respective amount of changes. However, the assessment of hedge effectiveness is omitted for those interest rate swaps that meet the criteria for exceptional treatment.

Derivative transactions are conducted and managed in accordance with internal regulations that specify the basic policy for risk management.

Loans payable, investment corporation bonds and tenant leasehold and security deposits in trust are exposed to liquidity risks. However, the Company manages these risks through preparing monthly financing plans, maintaining liquidity, and other means by its asset manager.

Operating receivables denominated in foreign currencies associated with the acquisition of overseas properties are exposed to the risk of fluctuations in exchange rates. However, since the percentage of these receivables to total assets is low, they are handled under a system in which the asset manager monitors the risk and examines the necessity of hedging it with the use of derivative transactions such as forward foreign exchange contract transactions.

The Company may be engaged in foreign currency denominated transactions in connection with investments in overseas real estate, etc. Such transactions carry the risk of fluctuations in exchange rates, and exchange rate fluctuations may negatively affect the Company's earnings. If the yen increasingly appreciates against other currencies, the yen-based value of foreign currency denominated transactions that arise in connection with investments in overseas real estate, etc. may be diminished to negatively impact the Company's net income for the relevant fiscal period.

Moreover, if there are foreign denominated assets and liabilities in connection with investments in overseas real estate, etc., certain accounts of these assets and liabilities will be converted into the yen at the exchange rate prevailing on the closing date for the preparation of financial statements. Due to exchange rate fluctuations, these accounts may negatively affect the Company's net income.

(iii) Supplementary explanations on fair values of financial instruments

The fair values of financial instruments include values based on market prices or reasonably calculated values if there are no market prices available. As certain assumptions are used in calculating these values, if different assumptions are used, these values could vary.

(b) Fair Values of Financial Instruments

The following table shows carrying amounts, fair values, and unrealized gains or losses of financial instruments as of July 31, 2021 and January 31, 2022. Stocks, etc. with no market price are not included in the table below ^(Note 2). Notes on Cash and deposits and Cash and deposits in trust are omitted as they are cash and short-term settlements and their fair values approximate their carrying amounts. Notes on Tenant leasehold and security deposits and Tenant leasehold and security deposits in trust are also omitted due to immateriality.

	As of								
	July 31, 2021			January 31, 2022			January 31, 2022		
	Carrying amount	Fair value	Unrealized gain (loss)	Carrying amount	Fair value	Unrealized gain (loss)	Carrying amount	Fair value	Unrealized gain (loss)
	(Thousands of yen)						(Thousands of U.S. dollars)		
(1) Current portion of long-term loans payable	¥ 19,100,000	¥ 19,110,267	¥ 10,267	¥ 40,100,000	¥ 40,129,386	¥ 29,386	\$ 347,366	\$ 347,621	\$ 254
(2) Investment corporation bonds	51,000,000	50,862,000	(138,000)	51,000,000	50,674,900	(325,100)	441,787	438,971	(2,816)
(3) Long-term loans payable	89,700,000	91,174,803	1,474,803	88,000,000	88,884,050	884,050	762,300	769,958	7,658
Total	¥159,800,000	¥161,147,071	¥1,347,071	¥179,100,000	¥179,688,337	¥588,337	\$1,551,455	\$1,556,551	\$5,096
(4) Derivative transactions	¥ —	¥ —	¥ —	¥ —	¥ —	¥ —	\$ —	\$ —	\$ —

Notes: 1. Methods used to calculate fair values of financial instruments

(1) Current portion of long-term loans payable and (3) Long-term loans payable

Because interest rates of long-term loans payable with floating interest rates are to be revised periodically, their carrying amounts approximate fair values. Fair value of long-term loans payable with fixed interest rates is calculated by discounting the total of principal and interest at the rate assumed when a new, similar loan corresponding to the remaining period is made. Fair value of interest rate swaps, to which the exceptional treatment is applied, is included in the fair value of long-term loans payable, a hedged item.

(2) Investment corporation bonds

The fair value of investment corporation bonds is based on the reference price disclosed by the Japan Securities Dealers Association.

(4) Derivative transactions

Please refer to "13. Derivatives" described below.

2. Carrying amount of financial instruments whose fair value is extremely difficult to determine

	As of		
	July 31, 2021	January 31, 2022	January 31, 2022
	(Thousands of yen)		(Thousands of U.S. dollars)
Shares of subsidiaries and associates	¥6,078,453	¥6,078,453	\$52,654
Total	¥6,078,453	¥6,078,453	\$52,654

Shares of subsidiaries and associates are not subject to fair value disclosure pursuant to Paragraph 5 of the Implementation Guidance on Disclosures about Fair Value of Financial Instruments.

3. Repayment schedule for investment corporation bonds and loans payable

	Due in 1 year or less	Due after 1 year through 2 years	Due after 2 years through 3 years	Due after 3 years through 4 years	Due after 4 years through 5 years	Due after 5 years
July 31, 2021	(Thousands of yen)					
Current portion of long-term loans payable	¥19,100,000	¥ —	¥ —	¥ —	¥ —	¥ —
Investment corporation bonds	—	—	—	—	2,000,000	49,000,000
Long-term loans payable	—	20,800,000	20,400,000	15,300,000	13,300,000	19,900,000
Total	¥19,100,000	¥20,800,000	¥20,400,000	¥15,300,000	¥15,300,000	¥68,900,000

	Due in 1 year or less	Due after 1 year through 2 years	Due after 2 years through 3 years	Due after 3 years through 4 years	Due after 4 years through 5 years	Due after 5 years
January 31, 2022	(Thousands of yen)					
Current portion of long-term loans payable	¥40,100,000	¥ —	¥ —	¥ —	¥ —	¥ —
Investment corporation bonds	—	—	—	2,000,000	1,000,000	48,000,000
Long-term loans payable	—	20,400,000	15,300,000	13,300,000	20,400,000	18,600,000
Total	¥40,100,000	¥20,400,000	¥15,300,000	¥15,300,000	¥21,400,000	¥66,600,000
	Due in 1 year or less	Due after 1 year through 2 years	Due after 2 years through 3 years	Due after 3 years through 4 years	Due after 4 years through 5 years	Due after 5 years
January 31, 2022	(Thousands of U.S. dollars)					
Current portion of long-term loans payable	\$347,366	\$ —	\$ —	\$ —	\$ —	\$ —
Investment corporation bonds	—	—	—	17,325	8,662	415,800
Long-term loans payable	—	176,715	132,536	115,211	176,715	161,122
Total	\$347,366	\$176,715	\$132,536	\$132,536	\$185,377	\$576,923

12. Investment Securities

(1) Shares of subsidiaries and associates

17th fiscal period (as of July 31, 2021)

Please refer to “11. Financial Instruments, (b) Fair Values of Financial Instruments, Note 2. Carrying amount of financial instruments whose fair value is extremely difficult to determine” above.

18th fiscal period (as of January 31, 2022)

Please refer to “11. Financial Instruments, (b) Fair Values of Financial Instruments, Note 2. Carrying amount of financial instruments whose fair value is extremely difficult to determine” above.

13. Derivatives

The following table shows derivative transactions, to which hedge accounting is applied, as of July 31, 2021 and January 31, 2022. The Company enters into derivative transactions only for hedging purposes.

As of July 31, 2021

Method of hedge accounting	Type	Hedged item	Contract amount		Fair value
			Total	Due after 1 year	
(Thousands of yen)					
Exceptional treatment for hedge accounting of interest rate swaps	Interest rate swaps (fixed rate payment, floating rate receipt)	Long-term loans payable	¥106,700,000	¥87,600,000	(Note)

As of January 31, 2022

Method of hedge accounting	Type	Hedged item	Contract amount		Fair value	Contract amount		
			Total	Due after 1 year		Total	Due after 1 year	Fair value
(Thousands of yen)						(Thousands of U.S. dollars)		
Exceptional treatment for hedge accounting of interest rate swaps	Interest rate swaps (fixed rate payment, floating rate receipt)	Long-term loans payable	¥106,700,000	¥87,300,000	(Note)	\$924,289	\$756,237	(Note)

Note: Interest rate swaps, to which exceptional treatment is applied, are accounted for as a single unit with the hedged item, long-term loans payable. Thus, the fair value of the interest rate swaps is included in the fair value of "(3) Long-term loans payable" in "11. Financial Instruments, (b) Fair Values of Financial Instruments."

14. Retirement Benefits

17th fiscal period (as of July 31, 2021)

Not applicable

18th fiscal period (as of January 31, 2022)

Not applicable

15. Income Taxes

The following table shows a reconciliation between the statutory tax rate and effective tax rate for the six-month periods ended July 31, 2021 and January 31, 2022.

	For the six-month period ended	
	July 31, 2021	January 31, 2022
	(%)	
Statutory tax rate	31.46	31.46
Deductible cash distributions	(31.61)	(32.01)
Reversal of distribution reserve	0.67	0.59
Other	(0.50)	(0.03)
Effective tax rate	0.01	0.01

Deferred tax assets and liabilities consist of the following:

	As of		
	July 31, 2021	January 31, 2022	January 31, 2022
	(Thousands of yen)		(Thousands of U.S. dollars)
Deferred tax assets			
Asset retirement obligations	¥ —	¥142,931	\$1,238
Amortization of leasehold interests	—	38,017	329
Tax loss carried forward ^(Note)	274,980	260,779	2,259
Subtotal of deferred tax assets	274,980	441,728	3,826
Valuation reserve	(274,980)	(309,156)	(2,678)
Total deferred tax assets	—	132,572	1,148
Deferred tax liabilities			
Property and equipment corresponding to the asset retirement obligations	—	(132,572)	(1,148)
Total deferred tax liabilities	—	(132,572)	(1,148)
Net deferred tax assets	¥ —	¥ —	\$ —

Note: For the tax loss carried forward and the amount of the deferred tax assets by carry-forward period, please refer to “Tax loss carried forward and amount of deferred tax assets by carry-forward period” below.

Tax loss carried forward and amount of deferred tax assets by carry-forward period:

For the six-month period ended July 31, 2021

	1 year or less	1 year through 2 years	2 years through 3 years	3 years through 4 years	4 years through 5 years	5 years or more	Total
	(Thousands of yen)						
Tax loss carried forward ^(Note)	¥—	¥—	¥—	¥—	¥274,980	¥—	¥274,980
Valuation allowance	—	—	—	—	(274,980)	—	(274,980)
Total deferred tax assets	¥—	¥—	¥—	¥—	¥ —	¥—	¥ —

Note: Tax loss carried forward represents the amount multiplied by the effective statutory tax rate.

For the six-month period ended January 31, 2022

	1 year or less	1 year through 2 years	2 years through 3 years	3 years through 4 years	4 years through 5 years	5 years or more	Total
(Thousands of yen)

18. Asset Retirement Obligations

17th fiscal period (as of July 31, 2021)

Not applicable

18th fiscal period (as of January 31, 2022)

Asset retirement obligations recorded on the balance sheets

1. Overview of the asset retirement obligations

Asset retirement obligations have been recorded as AEON REIT has obligations to restore the sites to their original conditions based on the fixed-term land lease agreements for some of its assets.

2. Calculation method of the amount of the asset retirement obligations

The amount of the asset retirement obligations is calculated by estimating the expected use period of the relevant assets to be the remaining period of the relevant fixed-term land lease agreements (38 to 46 years) and using the discount rates of 0.797% - 0.802%.

3. Change in the total amount of the asset retirement obligations

	For the six-month period ended		
	July 31, 2021	January 31, 2022	January 31, 2022
	(Thousands of yen)		(Thousands of U.S. dollars)
Balance at beginning of current period ^(Note)	¥ —	¥119,399	\$1,034
Increase in property and equipment	—	333,113	2,885
Adjustment due to passage of time	—	1,814	15
Balance at end of current period	¥ —	¥454,327	\$3,935

Note: Due to increased significance, the amount of the past year is indicated as balance at beginning of current period, starting from the 18th fiscal period.

19. Investment and Rental Properties

The Company holds retail properties for rental purposes. The following table shows the carrying amount and fair value of these rental properties for the six-month periods ended July 31, 2021 and January 31, 2022.

The amounts for the six-month period ended July 31, 2021 and the amounts for the six-month period ended January 31, 2022 do not include AEON MALL SEREMBAN 2 held through the overseas SPC.

	As of / For the six-month period ended		
	July 31, 2021	January 31, 2022	January 31, 2022
	(Thousands of yen)		(Thousands of U.S. dollars)
Carrying amount ^(Note 1)			
Balance at beginning of period	¥354,468,585	¥351,964,805	\$3,048,898
Changes during period ^(Note 2, 3)	(2,503,780)	47,427,208	410,838
Balance at end of period	¥351,964,805	¥399,392,013	\$3,459,736
Fair value at end of period ^(Note 4)	¥421,710,857	¥473,451,422	\$4,101,277

Notes: 1. The carrying amount is stated at acquisition cost less accumulated depreciation.

2. Of the changes during the fiscal period for the six-month period ended July 31, 2021, the increase is mainly due to additional acquisition of land of AEON MALL Nogata amounting to ¥1,334,227 thousand and capital expenditures at existing properties amounting to ¥904,830 thousand, while the decrease is principally attributable to disposition of part of land of AEON MALL Yamatokoriyama amounting to ¥47,212 thousand and depreciation amounting to ¥4,695,625 thousand.

3. Of the changes for the six-month period ended January 31, 2022, the increase is mainly due to acquisition of four properties (AEON MALL Takasaki, AEON MALL Narita, AEON MALL Shinkomatsu and AEON MALL Sagayamato) with a total acquisition price of ¥50,753,811 thousand, capital expenditures at existing properties amounting to ¥1,504,386 thousand and recording of asset retirement obligations amounting to ¥445,703 thousand, while the decrease is principally attributable to depreciation amounting to ¥5,213,564 thousand.

4. The fair value at the end of the period is the sum of the appraisal or survey values provided by an independent real estate appraiser.

Please refer to “7. (a) Revenues and Expenses Related to Real Estate Leasing Business” for revenues and expenses related to investment and rental property.

20. Revenue Recognition

For the six-month period ended January 31, 2022

1. Breakdown information on revenue from contracts with customers

For the breakdown information on revenue from contracts with customers, refer to (a) Revenues and Expenses Related to Real Estate Leasing Business in 7. Statements of Income.

Note that (a) Revenues and Expenses Related to Real Estate Leasing Business includes revenue in accordance with the Accounting Standard for Lease Transactions (ASBJ Statement No.13). Furthermore, revenue from contracts with customers mainly represents utilities income (¥45,953 thousand) that is included in Other lease business revenue - real estate.

2. Basic information for understanding revenue from contracts with customers

The information is as described in 2. Summary of Significant Accounting Policies.

3. Information on relationship between fulfillment of performance obligations based on contracts with customers and cash flow generated from said contracts, and on amount and period of revenues expected to be recognized in the following accounting period or thereafter from contracts with customers existing at the end of the current accounting period

Not applicable

21. Limitations on Management of Assets

For the six-month period ended July 31, 2021

The Company owns the shares of JAMBATAN MANSEIBASHI (M) Sdn. Bhd., which falls under the category of an overseas real estate holding corporation in the sense that the Company holds the shares issued by an overseas real estate holding corporation or equity interests in the corporation with the number of issues or the value of equity interests surpassing the number or value obtained by multiplying the total number of shares issued by the corporation or the total value of the equity interests in the corporation (excluding the treasury shares or equity investment on its own of the corporation) by the rate designated in Article 221 of the Regulation for Enforcement of the Act on Investment Trusts and Investment Corporations. Matters related to JAMBATAN MANSEIBASHI (M) Sdn. Bhd. are as follows. Furthermore, the financial statements based on Malaysia's accounting standards (equivalent to IFRS) have been audited by PwC Malaysia. Audit procedures for the financial statements of the period ended July 2021 have also been completed.

(1) Total acquisition price of shares of JAMBATAN MANSEIBASHI (M) Sdn. Bhd.

RM240,185,002 (¥6,078,453,998) ^(Note)

Note: The value converted to Japanese yen from Malaysian Ringgit indicates the sum total of the yen-based payments the Company made in multiple installments for the shares of the Overseas SPC. The amount includes the expenses required for the acquisition of the shares.

(2) Ratio of the number of shares of JAMBATAN MANSEIBASHI (M) Sdn. Bhd. that belong to the Company's assets to the total number of shares issued by JAMBATAN MANSEIBASHI (M) Sdn. Bhd.

100%

(3) Amounts of major items in the balance sheets and statements of income of JAMBATAN MANSEIBASHI (M) Sdn. Bhd.

With regard to the closing of accounts of JAMBATAN MANSEIBASHI (M) Sdn. Bhd. for the fiscal period ended January 2021 (August 1, 2020 to January 31, 2021), audits have been completed by PwC Malaysia on the basis of Malaysia's accounting standards (equivalent to IFRS). Of the Company's audited financial statements for the fiscal period ended January 2021 based on the relevant laws, amounts of major items in the balance sheets and statements of income are as follows.

Items on the balance sheets

	As of January 31, 2021
	RM (Thousands of yen) ^(Note 1, 2)
Total current assets	RM 19,453,601 (¥ 501,902)
Total non-current assets	185,624,267 (4,789,106)
(Of which, total investment properties)	185,624,267 (4,789,106)
Total current liabilities	863,395 (22,275)
Total non-current liabilities	— (—)
Total net assets	RM204,214,472 (¥5,268,733)

Notes: 1. For the balance sheets, figures of the financial statements prepared on the basis of Malaysia's accounting standards (equivalent to IFRS) have been reclassified to figures based on Japanese accounting standards (although disclosure is not based on Japanese accounting standards). RM5,244,665 (¥133,418 thousand) was paid as dividend to the Company on December 7, 2020. In receiving dividends, the Company conducts forward exchange transactions in which the exchange rate for converting RM to Japanese yen is set in advance, and the applied exchange rate for such transactions is RM1 = JPY25.43 (rounded down to the second decimal place).

2. The exchange rate on the closing date (January 31, 2021) (RM1 = JPY25.80; rounded down to the second decimal place) is used for the conversion.

Items on the statements of income

For the period from August 1, 2020 to January 31, 2021	
	RM (Thousands of yen) ^(Note 1, 2)
Net sales	RM7,752,142 (¥197,447)
Income (loss) before income taxes	2,437,596 (62,085)
Net income (loss)	RM 708,024 (¥ 18,033)

Notes: 1. For the statements of income, figures of the financial statements prepared on the basis of Malaysia's accounting standards (equivalent to IFRS) have been reclassified to figures based on Japanese accounting standards (although disclosure is not based on Japanese accounting standards). RM4,353,159 (¥114,950 thousand) was paid as dividend to the Company on June 9, 2021. In receiving dividends, the Company conducts forward exchange transactions in which the exchange rate for converting RM to Japanese yen is set in advance, and the applied exchange rate for such transactions is RM1 = JPY26.40 (rounded down to the second decimal place).

2. The average exchange rate for the period (RM1 = JPY25.47; rounded down to the second decimal place) is used for the conversion.

For the six-month period ended January 31, 2022

The Company owns the shares of JAMBATAN MANSEIBASHI (M) Sdn. Bhd., which falls under the category of an overseas real estate holding corporation in the sense that the Company holds the shares issued by an overseas real estate holding corporation or equity interests in the corporation with the number of issues or the value of equity interests surpassing the number or value obtained by multiplying the total number of shares issued by the corporation or the total value of the equity interests in the corporation (excluding the treasury shares or equity investment on its own of the corporation) by the rate designated in Article 221 of the Regulation for Enforcement of the Act on Investment Trusts and Investment Corporations. Matters related to JAMBATAN MANSEIBASHI (M) Sdn. Bhd. are as follows. Furthermore, the financial statements based on Malaysia's accounting standards (equivalent to IFRS) have been audited by PwC Malaysia. Audit procedures for the financial statements of the period ended January 2022 have also been completed.

(1) Total acquisition price of shares of JAMBATAN MANSEIBASHI (M) Sdn. Bhd.

RM240,185,002 (¥6,078,453,998) ^(Note)

Note: The value converted to Japanese yen from Malaysian Ringgit indicates the sum total of the yen-based payments AEON REIT made in multiple installments for the shares of the Overseas SPC. The amount includes the expenses required for the acquisition of the shares.

(2) Ratio of the number of shares of JAMBATAN MANSEIBASHI (M) Sdn. Bhd. that belong to the Company's assets to the total number of shares issued by JAMBATAN MANSEIBASHI (M) Sdn. Bhd.

100%

(3) Amounts of major items in the balance sheets and statements of income of JAMBATAN MANSEIBASHI (M) Sdn. Bhd.

With regard to the closing of accounts of JAMBATAN MANSEIBASHI (M) Sdn. Bhd. for the fiscal period ended July 2021 (February 1, 2021 to July 31, 2021), audits have been completed by PwC Malaysia on the basis of Malaysia's accounting standards (equivalent to IFRS). Of the company's audited financial statements for the fiscal period ended July 2021 based on the relevant laws, amounts of major items in the balance sheets and statements of income are as follows.

Items on the balance sheets

	As of July 31, 2021
	RM (Thousands of yen) ^(Note 1, 2)
Total current assets	RM 20,284,472 (¥ 524,759)
Total non-current assets	181,079,132 (4,684,517)
(Of which, total investment properties)	181,079,132 (4,684,517)
Total current liabilities	810,513 (20,967)
Total non-current liabilities	— (—)
Total net assets	RM200,553,091 (¥5,188,308)

Notes: 1. For the balance sheets, figures of the financial statements prepared on the basis of Malaysia's accounting standards (equivalent to IFRS) have been reclassified to figures based on Japanese accounting standards (although disclosure is not based on Japanese accounting standards). RM4,353,159 (¥114,950 thousand) was paid as dividend to the Company on June 9, 2021. In receiving dividends, the Company conducts forward exchange transactions in which the exchange rate for converting RM to Japanese yen is set in advance, and the applied exchange rate for such transactions is RM1 = JPY26.40 (rounded down to the second decimal place).

2. The exchange rate on the closing date (July 31, 2021) (RM1 = JPY25.87; rounded down to the second decimal place) is used for the conversion.

Items on the statements of income

	For the period from February 1, 2021 to July 31, 2021
	RM (Thousands of yen) ^(Note 1, 2)
Net sales	RM7,752,142 (¥204,656)
Income (loss) before income taxes	2,405,075 (63,493)
Net income (loss)	RM 691,778 (¥ 18,262)

Notes: 1. For the statements of income, figures of the financial statements prepared on the basis of Malaysia's accounting standards (equivalent to IFRS) have been reclassified to figures based on Japanese accounting standards (although disclosure is not based on Japanese accounting standards). RM5,236,912 (¥139,076 thousand) was paid as dividend to the Company on December 8, 2021. In receiving dividends, the Company conducts forward exchange transactions in which the exchange rate for converting RM to Japanese yen is set in advance, and the applied exchange rate for such transactions is RM1 = JPY26.55 (rounded down to the second decimal place).

2. The average exchange rate for the period (RM1 = JPY26.40; rounded down to the second decimal place) is used for the conversion.

22. Segment Information

Segment information for the six-month periods ended July 31, 2021 and January 31, 2022 is omitted as the Company is comprised of a single reportable segment engaged in the real estate leasing business.

Related Information

(i) Information by product and service

For the six-month periods ended July 31, 2021 and January 31, 2022, disclosure is omitted since operating revenue from external customers of products and services within a single category were more than 90% of operating revenue on the statements of income.

(ii) Information by geographical area

Operating revenue

For the six-month periods ended July 31, 2021 and January 31, 2022, disclosure is omitted since operating revenue from external customers in Japan exceeded 90% of operating revenue on the statements of income.

Property and equipment

For the six-month periods ended July 31, 2021 and January 31, 2022, disclosure is omitted since the amount of property and equipment located in Japan exceeded 90% of property and equipment on the balance sheets.

(iii) Information by major customer

Name of customer	Operating revenue for the six-month period ended			Related segment
	July 31, 2021	January 31, 2022	January 31, 2022	
	(Thousands of yen)		(Thousands of U.S. dollars)	
AEON Mall Co., Ltd.	¥7,515,752	¥9,697,666	\$84,006	Real estate leasing business
AEON Retail Co., Ltd.	¥7,727,302	¥7,045,883	\$61,035	Real estate leasing business
AEON Hokkaido Corporation	¥ 677,496	¥ 790,538	\$ 6,848	Real estate leasing business
AEON KYUSHU Co., Ltd.	¥ 589,295	¥ 762,888	\$ 6,608	Real estate leasing business
The Daiei, Inc.	¥ 633,062	¥ 634,473	\$ 5,496	Real estate leasing business
AEON TOHOKU Co., Ltd.	¥ —	¥ 426,497	\$ 3,694	Real estate leasing business
AEON Global SCM Co., Ltd.	¥ 289,620	¥ 289,620	\$ 2,508	Real estate leasing business

Note: Amount of operating revenue is converted to Japanese yen based on the exchange rate at the time of the transaction (based on the average spot exchange rate of the month preceding the month in which the transaction was carried out).

23. Per Unit Information

Net assets per unit as of July 31, 2021 and January 31, 2022 and net income per unit for the six-month periods then ended are as follows:

	As of / For the six-month period ended		
	July 31, 2021	January 31, 2022	January 31, 2022
	(Yen)		(U.S. dollars)
Net assets per unit	¥112,588	¥115,675	\$1,002
Net income per unit	¥ 3,133	¥ 3,283	\$ 28
Weighted average number of investment units for the period (Units)	1,873,317	2,028,344	

Net income per unit is calculated by dividing net income by the weighted average number of investment units outstanding during the period. Diluted net income per unit is not presented since there were no potentially dilutive investment units.

24. Subsequent Events

Not applicable

AEON REIT Investment Corporation

Supplemental Schedules

For the six-month periods ended January 31, 2022

1. Securities

(1) Total acquisition price of shares of JAMBATAN MANSEIBASHI (M) Sdn. Bhd.

RM240,185,002 (¥6,078,453,998) ^(Note)

Note: The value converted to Japanese yen from Malaysian Ringgit indicates the sum total of the yen-based payments the Company made in multiple installments for the shares of the Overseas SPC. The amount includes the expenses required for the acquisition of the shares. The estimated value of the shares of the affiliate in question represents the acquisition value since it was deemed extremely difficult to assess their market value.

(2) Ratio of the number of shares of JAMBATAN MANSEIBASHI (M) Sdn. Bhd. that belong to the Company's assets to the total number of shares issued by JAMBATAN MANSEIBASHI (M) Sdn. Bhd.

100%

2. Derivatives

The following table shows derivative transactions, to which hedge accounting is applied, as of January 31, 2022. The Company enters into derivative transactions only for hedging purposes.

Method of hedge accounting	Type	Hedged item	Contract amount		Fair value	Contract amount		
			Total	Due after 1 year		Total	Due after 1 year	Fair value
(Thousands of yen)						(Thousands of U.S. dollars)		
Exceptional treatment for hedge accounting of interest rate swaps	Interest rate swaps (fixed rate payment, floating rate receipt)	Long-term loans payable	¥106,700,000	¥87,300,000	(¥182,237)	\$924,289	\$756,237	(\$1,578)

Note: Interest rate swaps, to which exceptional treatment is applied, are accounted for as a single unit with the hedged item, long-term loans payable. Thus, the fair value of the interest rate swaps is included in the fair value of "(3) Long-term loans payable" in "11. Financial Instruments, (b) Fair Values of Financial Instruments."

3. Schedule of Property, Equipment and Intangible Assets

Type of Assets		Balance at Beginning of Period (Thousands of yen)	Increase during Period (Thousands of yen)	Decrease during Period (Thousands of yen)	Balance at End of Period (Thousands of yen)	Accumulated Depreciation or Amortization (Thousands of yen)	Depreciation during Period (Thousands of yen)	Net Balance at End of Period (Thousands of yen)	Remarks
Property and equipment	Land	108,463	—	—	108,463	—	—	108,463	—
	Buildings in trust	215,645,406	28,172,255	—	243,817,662	60,054,773	5,065,564	183,762,888	(Note)
	Structures in trust	1,450,642	524,552	—	1,975,194	1,169,581	84,572	805,612	(Note)
	Tools, furniture and fixtures in trust	28,611	—	—	28,611	12,959	2,524	15,652	—
	Land in trust	136,266,032	4,820,824	—	141,086,856	—	—	141,086,856	(Note)
	Construction in progress in trust	242	—	242	—	—	—	—	—
	Subtotal	353,499,398	33,517,632	242	387,016,788	61,237,313	5,152,661	325,779,474	—
Intangible assets	Leasehold interests in trust	54,532,516	19,200,868	—	73,733,384	120,845	60,902	73,612,539	(Note)
	Subtotal	54,532,516	19,200,868	—	73,733,384	120,845	60,902	73,612,539	—
Total		408,031,914	52,718,500	242	460,750,172	61,358,159	5,213,564	399,392,013	—

Note: The increase is mainly due to acquisition of four properties (AEON MALL Takasaki, AEON MALL Narita, AEON MALL Shinkomatsu and AEON MALL Sagayamato) amounting to ¥50,753,811 thousand, capital expenditures at existing properties amounting to ¥1,504,386 thousand and recording of asset retirement obligations amounting to ¥445,703 thousand.

4. Other Specified Assets

- (1) Interest swap transactions are stated in 2. Derivatives.
- (2) Trust beneficiary rights in real estate are included in "3. Schedule of Property, Equipment and Intangible Assets."
- (3) As of the end of the fiscal period for the six-month period ended January 31, 2022, AEON REIT has no other specified assets.

5. Investment Corporation Bonds (as of January 31, 2022)

Bond	Issue Date	Balance at Beginning of Period (Millions of yen)	Balance at End of Period (Millions of yen)	Interest Rate (%)	Maturity Date	Redemption Method	Use of Funds	Remarks

5th unsecured investment corporation bonds	December 7, 2018	15,000	15,000	0.783	December 7, 2028	Bullet repayment (Note 1)	(Note 2)	Unsecured and unguaranteed (Note 6)
6th unsecured investment corporation bonds (green bonds)	December 6, 2019	12,000	12,000	0.726	December 6, 2029	Bullet repayment (Note 1)	(Note 3)	Unsecured and unguaranteed (Note 6)
7th unsecured investment corporation bonds (sustainability bonds)	December 4, 2020	18,000	18,000	0.992	December 4, 2030	Bullet repayment (Note 1)	(Note 4)	Unsecured and unguaranteed (Note 6)
Total investment corporation bonds	—	¥51,000	¥51,000	—	—	—	—	—

Notes: 1. AEON REIT is allowed to redeem the investment corporation bonds by purchase at any time on and after the day following the payment date, unless otherwise stipulated by the depository.

2. The funds are used for repayment of loans.

3. The funds are used for repayment of loans allocated for the acquisition of Green Qualified Assets.

4. The bonds are used to fund repayment of loans allocated for the acquisition of Sustainability Qualified Assets.

Furthermore, Sustainability Qualified Assets refer to properties that meet both the Sustainability eligibility criteria 1 (Green Projects) and Sustainability eligibility criteria 2 (Social Projects) below.

Sustainability eligibility criteria 1: Relevant properties that have obtained or are expected to obtain any predetermined certification

Sustainability eligibility criteria 2: Projects that meet two or more items from (i) through (v) below and are deemed to contribute to realizing fulfilled lives of people and to local communities as life infrastructure assets of the local communities

(i) Facilities that are sufficiently creating local employment

(ii) Facilities that can supply necessary resources and evacuation spaces at the time of disaster, based on the disaster prevention agreements concluded with local governments

(iii) Facilities that contribute to healthy and cultural lives of community people, with childcare facilities or medical facilities housed as tenants

(iv) Facilities that serve as basic infrastructure for the daily lives of community people, with such public tenants as post offices housed

(v) Facilities that offer barrier-free or gender-free facilities

5. The investment corporation bonds are equipped with pari passu clause among specified investment corporation bonds.

6. The investment corporation bonds are equipped with pari passu clause among investment corporation bonds.

7. Amounts of investment corporation bonds to be redeemed for each year during the five years after the balance sheet date are as follows.

	Due in 1 year or less	Due after 1 year through 2 years	Due after 2 years through 3 years	Due after 3 years through 4 years	Due after 4 years through 5 years
January 31, 2022	(Thousands of yen)				
Investment corporation bonds	—	—	—	¥2,000,000	¥1,000,000
	Due in 1 year or less	Due after 1 year through 2 years	Due after 2 years through 3 years	Due after 3 years through 4 years	Due after 4 years through 5 years
January 31, 2022	(Thousands of U.S. dollars)				
Investment corporation bonds	—	—	—	\$17,325	\$8,662

6. Borrowings

Total borrowings	—	¥108,800	¥128,100	—	—	—	—	—

- Notes: 1. The average interest rate represents the weighted average of the interest rates of each loan agreement at period-end. For loans covered by interest rate swaps conducted to hedge the interest rate fluctuation risk, the weighted average reflecting the swaps is indicated.
2. Although these loans have variable interest rates, the interest payables have been fixed through interest rate swaps. Accordingly, the weighted average reflecting the swaps is indicated.
3. The loans are used for acquiring trust beneficiary rights in real estate.
4. The loans are used to partially fund refinancing of loans.
5. The loans are used to fund repayment of loans allocated for the acquisition of Green Qualified Assets. Furthermore, Green Qualified Assets refer to properties that meet either the Qualification criteria 1 or Qualification criteria 2 below. The same shall apply hereafter.
- Qualification criteria 1: Relevant properties have obtained or are expected to obtain any specified certification
- Qualification criteria 2: Real estate under management has undergone facility renovations aimed at making improvements that are beneficial from an environmental perspective, such as energy efficiency and water consumption performance
6. The following table shows the scheduled annual repayments of long-term loans payable that will be due within five years (excluding repayments that will be due within one year) of the balance sheet date.

	Due after 1 year through 2 years	Due after 2 years through 3 years	Due after 3 years through 4 years	Due after 4 years through 5 years
January 31, 2022	(Thousands of yen)			
Long-term loans payable	¥20,400,000	¥15,300,000	¥13,300,000	¥20,400,000
Total	¥20,400,000	¥15,300,000	¥13,300,000	¥20,400,000

	Due after 1 year through 2 years	Due after 2 years through 3 years	Due after 3 years through 4 years	Due after 4 years through 5 years
January 31, 2022	(Thousands of U.S. dollars)			
Long-term loans payable	\$176,715	\$132,536	\$115,211	\$176,715
Total	\$176,715	\$132,536	\$115,211	\$176,715

Independent Auditor's Report

Independent Auditor's Report

To the Board of Directors of AEON REIT Investment Corporation

Opinion

We have audited the financial statements of AEON REIT Investment Corporation (the Company), which comprise the balance sheets as at January 31, 2022, and the statements of income, statements of changes in net assets, statements of cash distributions and statements of cash flows for the six months period then ended, and notes to the financial statements, and the supplementary schedules.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at January 31, 2022, and its financial performance and its cash flows for the six months period then ended in accordance with accounting principles generally accepted in Japan.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in Japan. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Japan, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in Japan, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern and disclosing, as applicable, matters related to going concern.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in Japan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

PricewaterhouseCoopers Aarata LLC
Otemachi Park Building, 1-1-1 Otemachi, Chiyoda-ku, Tokyo 100-0004, Japan
T: +81 (3) 6212 6800, F: +81 (3) 6212 6801, www.pwc.com/jp/assurance

As part of an audit in accordance with auditing standards generally accepted in Japan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, while the purpose of the financial statement audit is not to express an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate whether the presentation and disclosures of the financial statements are in accordance with accounting principles generally accepted in Japan, the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide management with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Convenience translation

The U.S. dollar amounts in the accompanying financial statements with respect to the six months period ended at January 31, 2022 are presented solely for convenience. Our audit also included the translation of Japanese yen amounts into U.S. dollar amounts and, in our opinion, such translation has been made on the basis described in Additional Information to the financial statements.
